ABOUT **FOCS** 2024

The 2024 FUTURE OF CLIMATE SUMMIT (Vol. II) is a preeminent gathering of thought leaders, investors and innovators who are shaping the future of our planet. This highly curated event brings together the wider Earthshot Prize ecosystem of game changers nominated by PDIE Group. Future of Climate Summit focuses on insight, engagement, and action (rather than pitching) and thus enables the formation of long-lasting relationships. As a concerted effort, we help transition our planet, people, and markets towards a green and resilient world.

UNITE. **FOCUS. ACT.**

POSITIVE FUTURES ENABLED BY AI

Right ahead Climate Week, PDIE Group and The Earthshot Prize will bring together game changing innovators, thought leaders, policy makers and investors for an inspiring day of conversations and story telling about positive futures.

“Imagination is greater than knowledge” said Albert Einstein.

We are in turbulent times facing a polycrisis with intersecting challenges that need to be addressed systemically: natural disasters continue to increase, ecosystems and biodiversity are under pressure, weather extremes are on the rise globally, and a new arms race is on the horizon with yet unclear consequences on our natural habitat and built environment.

Out of conviction and because of the need, we would like to explore positive futures jointly based on five core themes. Our goal is to build bridges between nature and technology and examine use cases with artificial intelligence and deeptech solutions at the heart.

HOST GREETINGS

"We believe that by bringing together outstanding solution providers, investors, and global leaders, we can accelerate the progress towards a sustainable and resilient future. Through engaging discussions, impactful collaborations, and the sharing of visionary ideas, we aim to create a cohesive community of doers who are committed to solving our climate crisis and making a lasting impact."

CHRISTIAN SCHMITZ
PDIE GROUP – FOUNDER

"Connecting greentech stakeholders globally is part of our DNA. Our mission is to offer a fertile ground for ecosystem participants to prosper. It is only through collaboration that we can address some of the world's most pressing challenges and bring about the necessary economic, environmental, and societal changes."

FROM OUR ALLY

The Earth is at a tipping point, and we face a stark choice: Either we continue as we are, and irreparably damage our planet, or we remember our unique power as human beings, and our ability to lead, innovate, and problem-solve.

UNITE. FOCuS. ACT. SPONSORSHIP LETTER

Subject:

Opportunity to Sponsor Advancing Best-in-Class Environmental Solutions, at the Future of Climate Summit

We hope this letter finds you in good health.

On behalf of PDIE Group and Dentons, we are excited to introduce a unique opportunity for your esteemed organization to join us in making a significant impact on mitigating global environmental challenges. The Future of Climate Summit (FOCS) VOL II, scheduled for September 20th, 2024, is a pivotal gathering of world leading environmental experts, thought leaders, policymakers, and innovative minds. This Summit is set to be a platform for ^the generation of actionable solutions while fostering critical collaboration that can address urgent climate crisis needs, and goals. With a particular focus on sustainable cities, energy transition, biodiversity & nature capital, and the financial market's role in addressing global environmental challenges we emphasize solutions from the perspective of positive futures (set in 2030) and the opportunities offered by artificial intelligence (AI).

Your organization's support would contribute to the success of the summit and underline your commitment towards championing environmental excellence. As a sponsor, you will

- Advance highly-curated and commercially viable solutions enabling green markets and supporting viable solutions;
- Enhance your brand visibility and have your commitment prominently featured;
- Inspire other organizations and individuals to take action.

We believe in the network effect of how actions taken collectively have the potential to accelerate solutions and consequently business opportunities. Our goal is to enhance collaboration to drive a larger movement of climate champions that will make our world a more resilient and healthier place for generations to come. Kindly consider one of the following sponsorship packages to show your leading role in propagating promising solutions and indicate your commitment.

Thank you for your dedication towards making a meaningful difference together,

Christian Schmitz
