

Step Study Guide Week No. 1

Go over the “Step Study Teams” outline regarding the purpose, plan and meeting format. It is important that the commitment session of this outline be carefully reviewed and that each member of the team thoroughly understands that you are committing to do the steps – *all* the steps.

It should be understood that everyone will probably have one or more absences, and perfect attendance is not absolutely required. It is most helpful that everyone be present as much as possible and that communication develop between the team members so that they know how the other team members are progressing and how they are feeling about the team study.

Write your last run.
