

Why You Should Use 5TH Avenue Productions Black Light

-High Output Black Lights

The most common source of black light is the fluorescent tube lamp. These lamps are commonly found in wattage's ranging from 4 to 40 watts max and in lengths from 6" to 48". These lights can be large and bulk, and when it comes to crowds of people you must elevate the lights to shine from above.

-Multiple 400 watt Lights

5Th Avenue Productions only uses high output short arc lamps. These lamps work best for making objects glow bright, they also have the ability to throw black light far distances. With multiple lights placed around the room and elevated above the dance crowds you get the most amazing effects; plain white shirts turn to into light sources, glow products glow twice as bright.

For Additional Information on Black Light packages, or seasonal offers Please Contact us @ (520)419-0926

High Impact Sound Systems

We have multiple systems to tailor to your event whether its large or small, even larger outdoor events. We use the same professional equipment used in rock concerts, with our average system rated at an earth shaking 12800 watts.

High Impact Light Shows

Our light shows include colored dance lights, strobe lights, special effects dance lights, laser light effects, intelligent lighting solutions. We have the ability light up a dance floor from 500SqFt to 5000SqFt.

Take Your Event to The Next Level

Any current **5Th Avenue Productions** sound and light package can be UP-GRADED! Or create your own massive black light party package from the ground up to fit your style or theme. And if your on a budget, We have many different options and packages for your black light/ glow in the dark events. We offer solutions and choices to fit your occasion no matter what size your venue, budget or guest list is.

The ULTIMATE EXPERIENCE!

Want to add some spice to your event? 5Th Avenue Productions offers the ultimate Black-Light Show! This special package offers up to 6 mega black light cannons each powered at 400watts. Typical DJ's will give you 1 or 2 lights that are commonly underpowered and are placed at the front of the room which gives you light from only one direction.

360 degrees of black light coverage!

With 5Th Avenue Productions you will get lights all-around the room giving you 360 degrees of total area coverage of powerful black lights. White and neon tee shirts will illuminate dramatically. Black lights powerful enough to make your dance partners teeth visible from across the room .

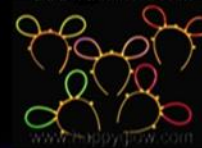

What is Black Light?

When there is black light in the room certain items such as plain white shirts and neon clothing have the ability to glow with its reflection. It adds another dimension to the scene. Glow products glow brighter in black light along with certain paints and accessories .

Need Glow Stuff!

We got you covered! **5Th Avenue Productions** can provide a huge variety of glow products such as glow sticks, glow glasses, glow necklaces, black light reactive paints and black light apparel (hats, gloves stickers, etc.). Need to raise funds! Ask us about purchasing glow products at wholesale, then sell all the glow stuff during your event. Don't WORRY! What you don't sell 5Th Avenue Productions will buy back!
