#### Short Term Health Guarantee

This puppy is guaranteed to be in good health, to the best of the seller's knowledge. Buyer has 72 hours, from the date of ownership in which to have the puppy checked by a licensed veterinarian. Failure to have puppy checked by a licensed veterinarian within 72 hours will void health guarantee. Buyer must e-mail or send a copy of the vet visit record to me.

After 72 hours, of the health guarantee period, the seller cannot be held accountable for future diagnosis of bacterial or viral infectious diseases, giardia, parasites, fungi, etc. since these can be contracted anywhere in the environment after leaving and are not a result of genetic or breeding. If there is a problem that cannot be rectified the buyer may return the puppy to seller, at buyer's expense, no later than the day following the vet exam, along with a veterinarian's statement stating the problem. Upon the puppies return, it will be replaced with another puppy of the same breed. Seller does not guarantee reproductive success as adult, litter size, offspring DNA.

(Exclusion: This does not include the presence of parasites and does not apply to a health problem resulting from an injury or accident due to buyer's negligence), the following provisions will be honored. All medical expenses are the sole responsibility of the buyer. All puppies are vaccinated and treated for worms and giardia before they leave. However, buyer need to be aware that these things can arise and that they are usually not serious (even though seeing blood in the stool appears serious) and are easily treated and seller will not cover the treatment for them after the puppy leaves our possession.
