MATE

Merge the smart home with the smart boat.

BRNKL Mate breaks down the barrier between the smart home and the smart boat by bringing the leading smart home brands onto your boat. Devices that are trusted in millions of homes now work on your boat.

Go Wireless

Pair wireless sensors from BRNKL and compatible third-party brands.

Truly Global

Connect a compatible Iridium satellite device to receive alerts from your boat from anywhere in the world.

Do More

Connect to your boat's NMEA 2000 network to monitor your engines, tank levels, and more.

Better Together

Connect BRNKL Mate to a BRNKL to unlock more functionality. Connect to BRNKL's global cellular network, built-in sensors, wired connections, and an additional camera.
