

Steripen UltraLight™

PRODUCT CHARACTERISTICS

Technology:	UV water purifier
Effect:	Eliminates bacteria, protozoa and viruses
Treatment size:	1 liter
Treatment time:	90 seconds
Lamp Life:	8000 activations
Battery:	Internal USB Rechargeable Lithium-Ion
Minimum bottle diameter:	38 mm
Weight (with batteries):	76 g
Dimensions:	13 x 3.5 x 2.2 cm
Kit contains:	USB charging cord
Article No.:	60110076

FACTS

- Smallest portable UV water purifier available.
- Best for individual use during emergencies and international travel.
- Treat up to 20 liters of water on a single charge from its high quality USB rechargeable battery which holds charge for months so it is ready when you need it.
- Ultraviolet (UV-C) light rays safely purify clear water by destroying 99.9% of protozoa (including Giardia and Cryptosporidia), bacteria and even viruses.
- When the treatment is complete, the lamp turns off and a green LED indicator lights up so you know you can hydrate safely.

Indicator LED

Water sensor pins

UV lamp

- 

1 Remove cap.
- 

2 Place lamp in water. Completely submerge metal water sensors. UV lamp will turn on because it is water activated.
- 

3 Stir until green LED turns from flashing to solid. Enjoy!
