

Rober Judd

Was born in Sparks, Nevada. Moved to Spring Lake at the Age of 7. I have lived in Spring Lake Utah most of my life. I served a mission to Argentina for the Church of Jesus Christ of Latter day saints. Married Vona Judd in 1995. I have four children 1 girl and 3 boys. I went to college at the college of southern Idaho and studied Fisheries management. I then came back to Spring Lake to work on the trout farm. I have worked there ever since. I am now the owner of Spring Lake Trout Farm. Jobs that I have worked while running the farm are: loss prevention officer for 10 years. aquarist at Cabela's taking care of the aquariums for 11 years. I was the President of the Utah Aquaculture association for 20 years, volunteer not paid. I also sat on the fish health policy board of Utah for 8 years.

Experience in creating and changing laws and rules.

I have participated in in Rule making at the capitol on several occasions. Worked with elected officials and bureaucrats to draft and improve bills concerning aquaculture in the state of Utah. During this 20-year process I was able to see how bills are conceived, drafted, voted on, and then implemented. I know this experience will be of great worth in forming a new town and the structure and implementation of rules and ordinances. I also served as a state delegate from 2018 to 2022 from our district.

Vision of Spring Lake Utah

I believe that Spring Lake is unique place unlike any other in Utah. With that being said I would like it to remain as such. Inevitable changes will take place going forward. I would like to preserve Spring Lake with the same basic principals that have governed us thus far. I believe we are a charitable community that cares for others. We are a moral people. I would thus like us to stay as close to the founding doctrines and documents of our nation as possible when it comes to the governance of our community. I have seen first hand how well-intentioned rules and regulations can become corrupted and twisted to enslave and rule over others.

Bemjamin Franklin said, "Only a virtuous people are capable of freedom. As Nations (or towns) become corrupt and vicious, they have more need of masters." Da

Daniel Webster said, "It is hardly too strong to say that the Constitution was made to guard the people against the dangers of good intentions.... There are men, in all ages... who mean to govern well; but they mean to govern. They promise to be kind masters "

I believe that government should be small and simple. Let moral people then make good choices. Once you start down the path of trying to control others and their property you start down a slipper slope. So simple and basic is what I would like to see for this community.

Thomas Jefferson said, "I, however place economy among the first and most important republican virtues, and public debt as the greatest of dangers to be feared. To preserve our independence, we must not let our rulers load us with perpetual debt.... A aim for a government rigorously frugal and simple"

I will not see any compensation for my time in office if elected.
