

Shamayne Cram

Topic 1

My name is Shamayne Cram, and I'm honored to be running for a seat on the Spring Lake Town Council. I'm not a politician—I'm a resident just like you. I chose Spring Lake because of its beauty, its peace, and most of all, its people. This town is more than just where we live—it's our community, our heritage, and our shared future.

Spring Lake has been my home for the past 10 years, and it holds a special place in my heart. Before moving here, I lived just next door in Payson since 1995. But when I found Spring Lake, I found more than just a place to live—I found peace, beauty, and a strong sense of community. I love the small-town feel, the view of the surrounding mountains, and the slower, more intentional pace of life. We're close enough to the city for convenience, but far enough to feel the difference in our day-to-day lives. And that difference matters.

I'm married to Dana Cram, and together we have six wonderful children and are blessed with 13 grandchildren. They are the love of my life and a big reason I care so deeply about the future of this town.

Professionally, I've spent more than 20 years in education, currently teaching kindergarten at Wilson Elementary, where I've taught for 17 years. Before that, I spent five years at Barnett Elementary. I've also been heavily involved in the PTA, especially when my children were younger, and I'm familiar with how by-laws and effective collaboration can make a real difference in a community.

Wilson Elementary is a leadership school where we practice the 7 Habits of Highly Effective People—and I carry those principles with me both in and out of the classroom. My students know that Mrs. Cram is fair, safe, and trustworthy—qualities I will bring to this council if elected. I'm also experienced in writing grants to bring much-needed funding into schools. I know how to navigate limited resources, and more importantly, I know how to find solutions—even when it means reaching out to the right people to get things done.

Outside the classroom, I serve as a volunteer teacher, temple ordinance worker, girls camp director, and in many other roles at my church, both locally and at a broader stake level. Service has always been part of who I am, and I believe in building strong, lasting relationships.

Topic 2

I want to protect the values and beauty of Spring Lake while helping our community grow in meaningful, thoughtful ways. My vision for the future of Spring Lake is:

- **Protect our rural character** while improving essential infrastructure.
- **Support local farms and small businesses**, which are the backbone of our economy and identity.
- **Ensure responsible land use**, so development never comes at the expense of what makes this town unique.
- **Foster a community where families thrive**, our natural resources are respected, and neighbors look out for one another.
- **Encourage responsible development** that preserves the peaceful, rural charm of our town.
- **Build opportunities for community connection**, including advocating for something close to my heart—a **community library** where families, children, and neighbors can gather and learn.
- **Ensure wise financial stewardship** by pursuing grants and alternative funding sources to support needed projects without unnecessary burden on residents.

Spring Lake is a gem, and it deserves leadership that's rooted in service, integrity, and action. If elected, I will bring a teacher's patience, a mother's care, and a leader's commitment. I will listen, learn, and always act with the best interests of our town in mind. I promise to serve with transparency, integrity, and commitment. I'll be accessible, accountable, and always open to your ideas and concerns. My goal isn't just to represent Spring Lake—I want to help shape a future we can all be proud of.

Thank you for your support, and I humbly ask for your vote.
