

Spensor Smith

Hello everyone,

Thanks for taking the time to be here tonight. For those of you who don't know me, My name is Spensor Smith, son of David and Deborah Smith, grandson to Glen and Dorthella Benson, great-grandson to Wayne and Fern Benson, great-great-grandson to George and Elizabeth Cowan. All of whom have lived in or around Springlake since the early 1900's. Making me a 5th generation Springlakian. My wife and I currently live on the south side of the block in the old, white, brick house growing all of the pretty flowers which we sell and donate.

Firstly, establishing a new town is no small feat. It requires careful planning, foresight, and a clear understanding of the long-term goals. I have always been someone who thinks strategically and focuses on attaining goals that have been made. I am committed to ensuring that every decision we make today is one that will benefit the people who call this town home for years to come.

Second, **I'm all about teamwork.** This isn't something one person can do alone, and I'm definitely not someone who thinks they've got all the answers. I know that the best outcomes come when we're all in it together, listening and learning from each other.

Finally, I'm deeply committed to **sustainability and forward-thinking solutions.** We can't build a town today without thinking about tomorrow and I'm all in on making sure we're building a town that's not just good for now, but great for the future.

Thanks again for considering me! I'm looking forward to getting started!

---

I'm running because I care about this town. I care about keeping our neighborhoods safe and clean, making sure we have good opportunities for families to grow and develop in the community, and making sure the few businesses here in Springlake have the support they need to grow and find success, how big or small they are. But I also care about keeping that small-town vibe that makes us different from everywhere else.

Here's what I'm focused on:

Listening to you—I don't have all the answers, but I'll always be willing to hear your ideas, concerns, and feedback. And am willing to work together to solve problems and solutions as they arise.

Making smart decisions for growth that doesn't lose what we love about this town.

Taking care of our community—making sure our streets, and neighborhoods stay safe and welcoming.

At the end of the day, I'm not here to make big promises—I'm here to roll up my sleeves and work with all of you to make Springlake even better.

I'm here because I believe in this vision, and I believe I can bring the right energy and skills to make it happen. I love the town of Springlake, I loved growing up here. And I still feel blessed everyday that I get to call this little piece of paradise home. I'm so excited about the chance to work alongside all of you, to make sure this town isn't just another place to live, but a community we can all be proud of.

Thanks again for considering me! I'm looking forward to getting started!
