NH YOUTH SUCCESS PROJECT

ABOUT US

Who we are: A board of young people who have experienced homelessness in New Hampshire while under the age of 25.

What we do: The YSP makes sure that youth voices and lived experience are a part of decision making by adults about services and supports for young people experiencing homelessness. We've helped write plans for how to end youth homelessness in NH, trained case managers on how to work with young people, pushed for support for students on college campuses, made an artbook, and so much more!!

VISION & MISSION

Vision: A New Hampshire where every young person is stably housed, is empowered to make decisions about their own lives, and is treated with dignity and respect.

Mission: The Youth Success Project works to end youth homelessness by amplifying the voices of young people and working in coalition with frontline service providers.

CORE VALUES

Lived expertise: We center and amplify the voices of youth with the lived experience of homelessness.

Strong relationships: We invest in and leverage relationships with young people and adult partners to create positive community change.

Learning & Growth: We believe in the growth of youth and adult partners. Through giving and receiving honest feedback we invest in our collective growth and long-term collaboration.

Acknowledge systems of oppression: We understand homelessness as an issue of social injustice and not one of individual failing. We work to identify and center diverse experiences and perspectives in our work.
