

# Mobile Link™

More choices. Multiple service levels. Choose the right solution for your needs.

# Get connected

---

With Mobile Link remote monitoring, you can monitor the status of your home standby generator wirelessly, through the Mobile Link app or at MobileLinkGen.com. You can receive real-time status updates, see your maintenance needs and schedule, and contact your service dealer directly.

For additional peace-of-mind, you can sign up for a dealer-managed plan, which automatically provides your service dealer access to notifications when service is required or a problem occurs – 24/7, 365 days a year.

# Your generator's information, at hand and in one place

---

## Exercise Timing

Quickly and easily set when your generator exercises to your exact preference

## Generator Run Time

Get a glimpse into how long your generator has run for during its lifetime

## Generator Fuel Level

Connect an optional Tank Utility propane monitor to check your fuel level

## Text Alerts

Receive up to the minute text and email alerts directly to your smart device, to ensure you are always aware of your power status

## Maintenance Schedule

Keep track of your generator's maintenance schedule to ensure your home standby generator is running smoothly

## Dealer Monitoring

Upgrade to a Dealer-Managed Plan and your service dealer will have access to real-time notifications whenever maintenance is required or a problem occurs

# Convenience

---

**On your way to the airport,** you see your generator needs maintenance. You click to call your preferred servicing dealer to make an appointment while you're away.

**From your hotel,** you get notifications that your generator is exercising as it should.

**You're glad to be on the beach,** because you hear there's a big storm back home. One glance at Mobile Link tells you that your generator is running—protecting your home—because the power went out.

**At dinner with friends** you see that there's a problem with your generator. You click to call your dealer to have it fixed before the next power outage.

**During that long business meeting,** Mobile Link tells you that your generator is ready to protect your family at home if the power goes out.

**Your parents are impressed** with how easy it is to monitor your generator. They'd like one just like yours. You use Mobile Link to give them the model number, and put them in touch with your dealer.

# Compatibility

---

Mobile Link is compatible with most air-cooled and liquid-cooled Generac, Eaton, Siemens and Honeywell brand Home Standby Generators manufactured after 2008."

# Get 24/7 peace of mind

---

Once you're connected to the Mobile Link service, you can increase your generator's reliability even further by signing up for a dealer-managed plan. When you sign up for a dealer-managed plan, your service dealer will have access to real-time notifications whenever maintenance is required or a problem occurs. With a dealer-managed plan, your generator is always ready to go, without you needing to lift a finger.
