## EARLY BIRD WEEKLY

Pretty light reading this week. Last week was Club Choreographer Casey's interpretation of our 21st Dr. Love.

And to those that asked, who was our first?

That would be GFU's President (retired) David Brandt back in 2001.

Most of the day's imagery was captured as video so you can look forward to an email from Casey when she has those clips all stitched together.

In the meantime, here are a few captures from the morning's festivities.

She had happy songs, sappy songs, sad songs and even Sting's stalker song.

Our Youth Exchange took the floor as well but I didn't get stills of them.

The Sherwood club won't be having their tree sale this year. Last year was brutal to the stock so we caught a few lemons to remind us to watch for their Wine Fest this year!
