Bill is polite and professional he arrived punctually at 8 am (the agreed time) Did a very in-depth inspection of my house inside and out, supported by high-quality photographs of things that needed attention. Bill gave me a fair and honest written report that was far more detailed than I had expected. Highly Recommended

Bill came in to inspect a property me and my wife had purchased with intention to renovate. I had a fair idea about the condition of the property but bill managed to find a few issues that I had overlooked and that possibly could have cost me thousands down the line. His work was thorough and punctual and answered all my questions and concerns in a Profesional manner.
