Alleviate IV Kit

Dealing with the physical and emotional symptoms of Premenstrual Syndrome (PMS) can be challenging. The **Alleviate IV Kit** is designed to provide targeted support to help you feel more comfortable and balanced during your cycle. By delivering essential nutrients directly into your system, this therapy helps address the underlying causes of common monthly discomforts.

What Can the Alleviate IV Kit Help With?

This infusion therapy is formulated to provide relief from several common PMS-related symptoms, including:

- **Abdominal discomfort and bloating**
- **Irritability and mood fluctuations**
- **Lower back pain**
- **Headaches and migraine pain**
- **General muscle tension**

How the Ingredients Work for You

Each component of the Alleviate IV Kit is selected to address specific physical and emotional needs.

- **Calcium Chloride:** Helps restore calcium levels affected by estrogen changes, working to calm muscle cramps and support healthy serotonin regulation to ease irritability.
- **Olympia's Vita-Complex:** Supports healthy carbohydrate metabolism to boost your energy and mood, while helping to release physical tension throughout the body.
- **Hydroxocobalamin:** A vital form of Vitamin B12 that assists with mood stability, bolsters energy levels, and promotes healthy brain, blood, and nerve function.
- **Magnesium Chloride:** Acts as a natural muscle relaxant to soothe uterine spasms, reduces inflammation to decrease pain, and is especially effective for managing migraines.
