

SUMMARY OF KEY COVID FACTS

***“Nothing in life is to be feared, it is only to be understood.
Now is the time to understand more,
so that we may fear less.”***

- Marie Curie

SUMMARY OF KEY COVID FACTS

These summary points have been proven by thousands of studies conducted by tens of thousands of doctors and medical scientists.

- ▶ Medically and scientifically, Covid-19 is a Severe Acute Respiratory Syndrome (SARS) Coronavirus 2, and is named (SARS-CoV-2). There are several SARS viruses, and these have been around for many, many years.
- ▶ The actual overall fatality rate of covid - averaged across all ages - is 0.1 - 0.3%. It is lower for people under 60, and higher for people over 60.
- ▶ *“Among COVID-19 exposed individuals, people in their 70s have roughly twice the mortality of those in their 60s, 10 times the mortality of those in their 50s, 40 times that of those in their 40s, 100 times that of those in their 30s, 300 times that of those in their 20s, and a mortality that is more than 3000 times higher than for children. Since COVID-19 operates in a highly age specific manner, mandated counter measures must also be age specific. If not, lives will be unnecessarily lost.”* - Dr. Martin Kulldorff, Harvard Epidemiologist
- ▶ Children are remarkably immune to covid illness and death. 7X more children die from flus than from covid.
- ▶ Dr. Michael Yeadon points out that the "novel" covid-19 contagion is novel only in the sense that it is a new type of coronavirus: *“There are at least four well characterized family members (229E, NL63, OC43 and HKU1) which are endemic and cause some of the common colds we experience, especially in winter. They all have striking sequence similarity to the new coronavirus.”* So, covid-19 is in the same family of viruses as the common cold and flu, even if it is slightly more lethal.
- ▶ Dr. Michael Yeadon: *“It is now established that at least 30% of our population already had immunological recognition of this new virus, before it even arrived...COVID-19 is new, but coronaviruses are not. A major component our immune systems is the group of white blood cells called T-cells whose job it is to memorise a short piece of whatever virus we were infected with so the right cell types can multiply rapidly and protect us if we get a related infection. Responses to COVID-19 have been shown in dozens of blood samples taken from donors before the new virus arrived.”*
- ▶ PANDA (Pandemic Data & Analytic): *“SARS-CoV-2 presents a negligible risk to the great majority of the world’s population. It primarily poses a risk to elderly, metabolically unhealthy and immunocompromised individuals. Many individuals already had a degree of immunity acquired through previous encounters with similar viruses. Moreover, those infected develop further natural immunity against severe disease, which appears to be more flexible and durable than any protection acquired through the Covid-19 vaccination.”*
- ▶ Covid is easily treatable at the early stages. 80-85% of covid deaths COULD HAVE BEEN PREVENTED. This means millions of covid deaths worldwide were needless.
 - Dr. Peter McCullough: *“COVID-19, no matter what variant, is easily treatable at home. About 85% of hospitalizations and deaths are completely avoidable with early treatment.”*
 - Dr. Theresa Lawrie: *“This medicine prevents deaths by 80%. So 80% of those people who are dying today don’t need to die because there’s ivermectin.”*

- Dr. Harvey Risch: *“Hydroxychloroquine, ivermectin, and other therapeutics are highly effective in early COVID treatment. These drugs have been suppressed... for reasons that have nothing to do with the science and the medicine.”*
 - Dr. Pierre Kory: *“There is a drug that is proving to be of miraculous impact [against COVID-19]. And when I say ‘miracle,’ I do not use that term lightly. That is a scientific recommendation based on MOUNTAINS of data that has emerged. It basically obliterates transmission of this virus. If you take it, you will not get sick. Early treatment is key.*
 - Dr. Brian C. Joondeph: *“How many COVID deaths could have been prevented if doctors, using their professional and clinical judgement, could have prescribed HCQ without fear of ostracization or loss of their jobs?”*
- ▶ Vaccination cannot prevent infection and transmission. Various severe and fatal vaccine adverse events have been reported, including in young people. A prior infection generally confers superior immunity compared to vaccination.
 - ▶ COVID-19 is NOT spread by asymptomatic people. Asymptomatic people should not get tested. Natural immunity is robust, complete and durable.
 - Dr. Anthony Fauci in Oct. 2020: *“In all the history of respiratory borne viruses of any type, asymptomatic transmission has NEVER been the driver of outbreaks. The driver of outbreaks is ALWAYS a symptomatic person. Even if there’s a rare asymptomatic person that might transmit [the virus], an epidemic is not driven by an asymptomatic carrier.”*
<https://www.youtube.com/watch?v=JIOzN03ZWXY&feature=youtu.be>
 - Dr. Peter McCullough: *“The virus is not spread asymptotically. Only sick people give it to other people.”*
 - Dr. John Lee: *“A respiratory virus needs associated symptoms in order to be clinically relevant. One year ago, this belief would have been universally accepted by the wider medical community. ... Infectiousness or transmission of a virus requires active infection resulting in high levels of viral replication and shedding. Symptoms, such as coughing, are the real drivers of spread.”*
<https://www.hartgroup.org/wp-content/uploads/2021/03/ASYMPTOMATIC-SPREAD.pdf>
 - Dr. Sucharit Bhakdi: *“Asymptomatic transmission is complete nonsense. It’s never been shown. It’s a claim that has been spread as a fact. And this, I consider, is criminal. The idea of an asymptomatic carrier spreading covid-19 is untrue, and is backed by zero data. There isn’t a single case in the world documented.”*
 - Dr. Andrew Kaufman: *“There is no asymptomatic spread of disease. We have grown up our entire lives and never once have we ever worried about catching any illness from any healthy people.*
 - Dr. Zac Cox: *“One of the biggest lies we are being told at the moment is asymptomatic spread. Everybody is terrified of their fellow man. They’re scared to hug Granny. They are lying. The reality is, people who spread infections have symptoms. You HAVE to be symptomatic in order to spread a respiratory infection. Time to speak the truth.”*

- Dr. Anna Forbes: “People need to stop being scared of healthy people - people who are not displaying signs and symptoms of infectious disease. I would really urge people to get back in touch with their common sense, to get back in touch with their sense of humanity.
- Dr. Johan Denis: “There are no data supporting asymptomatic spread. Healthy people cannot transmit a virus to someone else. Only sick people can. Kids can play as they used to and embrace their grandparents. They are no danger to them. Quarantine is only for sick people. Healthy people can resume their lives. We have been lied to.”
- Dr. Peter McCullough: “All we’re doing is generating false positives, creating extra cases, and creating extra concerns. The FDA never approved these tests for asymptomatic testing. The WHO as of June 25th has said ‘no asymptomatic testing.’”
- Dr. Barre Lando: “Have you ever sought medical help because you felt just fine? Have you ever avoided perfectly healthy people for fear of illness transmission? If not, why would you change this very rational behavior now? The only real virus is fear, and it has been very effectively weaponized against us. The only real answer is truth.”

https://theconservativetreehouse.com/2020/12/20/covid-19-study-of-almost-ten-million-finds-no-evidence-of-asymptomatic-spread-media-quiet/?fbclid=IwAR3nsH1cf8aEKpyC_HsVJwzD7WobmgpPUnkwCnsgCp_Xjg3rSc3S9HmegZs

- ▶ Numerous studies have proven that natural immunity is superior to any covid vaccine.
- ▶ Treating covid-19, no matter what variant, is easily treatable at home. For people at high risk or high exposure, early or prophylactic treatment is essential to prevent progression of the disease. According to hundreds of studies, early outpatient treatment of covid significantly reduces hospitalizations and deaths.
- ▶ Age profile: The median age of covid deaths is over 80 years in most Western countries (78 in the US) and about 5% of the deceased had no serious preconditions. The age and risk profile of covid mortality is therefore comparable to normal mortality, but increases it proportionally.
- ▶ Nursing homes: In many Western countries, about 50% of all covid deaths have occurred in nursing homes, which require targeted and humane protection. In some cases, care home residents died not from the coronavirus, but from weeks of stress and isolation.
- ▶ Excess mortality: Overall, the pandemic has increased mortality by 5% to 25% in most Western countries. The majority of additional deaths have NOT been caused by covid, but by government restrictions and lockdowns, as well as an aging population.
- ▶ Symptoms: 85-90% of all infected persons show no symptoms. Overall, about 90% of symptomatic people develop at most mild or moderate symptoms and do not require hospitalization. Early outpatient treatment significantly reduces hospitalizations.

- ▶ Much has been written in the news media and spoken by politicians about the dangers of overcrowded hospitals because of covid-19. There have been many reports of many hospitals swamped with covid patients. Over 90% of these reports are either completely false, or exaggerated. Very few hospitals were overrun with covid at any point over the past 2 years. Those few that were, were overloaded for a short time. The truth is that 98% of all hospitals in the world experienced NO increases over previous years, and NO hospital was ever full or overloaded with only covid patients.
- ▶ Masks: There is still little-to-no scientific evidence for the effectiveness of face masks in the general population, and the introduction of mandatory masks couldn't contain or slow the epidemic in most countries. If used improperly, masks actually increase the risk of infection.
- ▶ Children and schools: In contrast to influenza, the risk of disease and transmission in children is rather low in the case of covid. There was and is therefore no medical reason for the closure of elementary schools or other measures specifically aimed at children.
- ▶ Testing. The PCR test produce 50-95% false positives, depending on how many amplification cycles are run. In this regard, the so-called cycle threshold or ct value is an important parameter.
- ▶ Virus mutations: Similar to influenza viruses, mutations occur frequently in coronaviruses. Most of these mutations are insignificant, but some of them may increase the transmissibility of the virus.
- ▶ Government lockdowns , mandates and restrictions have caused MORE hospitalizations and deaths than covid.
- ▶ According to the UN, lockdowns put the livelihood of 1.6 billion people at acute risk, and push an additional 150 million children into poverty. And additional 3-5 Million children have died from starvation thanks to lockdowns - over and above the usual 3 Million children who starve to death every year.
- ▶ Sweden. In Sweden, covid mortality in 2020, without lockdown, was comparable to a strong influenza season and BELOW the EU average - where the EU used massive lockdowns and mandates. About 50% of Swedish deaths occurred in nursing homes at the beginning of the pandemic. The median age of Swedish covid deaths was around 84 years. (Section 7)
- ▶ Japan. Japan had one of then lowest fatality rates in the world, with NO lockdowns.
- ▶ Taiwan. Taiwan had one of the lowest fatality rates in the world, with NO lockdowns.
- ▶ Africa. African nations have very low fatality and hospitalization rates, with NO lockdowns and very low vaccination rates.
- ▶ India, the second-most populous nation on earth, has very low hospitalization and death rates, thanks to early treatment with inexpensive and successful treatments that have been proven in hundreds of studies.

Dr. Scott Atlas, *Robert Wesson Senior Fellow in health policy at Stanford University's Hoover Institution, Co-Director of the Global Liberty Institute, Founding Fellow of Hillsdale's Academy for Science & Freedom:*

Here are the 10 biggest falsehoods - known for years to be false, not recently learned or proven to be so - promoted by America's public health leaders, elected and unelected officials, and now-discredited academics:

1. SARS-CoV-2 coronavirus has a far higher fatality rate than the flu by several orders of magnitude.
2. Everyone is at significant risk to die from this virus.
3. No one has any immunological protection, because this virus is completely new.
4. Asymptomatic people are major drivers of the spread.
5. Locking down—closing schools and businesses, confining people to their homes, stopping non-COVID medical care, and eliminating travel—will stop or eliminate the virus.
6. Masks will protect everyone and stop the spread.
7. The virus is known to be naturally occurring, and claiming it originated in a lab is a conspiracy theory.
8. Teachers are at especially high risk.
9. COVID vaccines stop the spread of the infection.
10. Immune protection only comes from a vaccine.

International Global Summit with thousands of doctors:

<https://www.internationalcovidsummit.com>

<https://www.internationalcovidsummit.com/declaration>

Global Covid Summit is the product of an international alliance of 17,000 doctors and scientists, committed to speaking truth to power about Covid pandemic research and treatment:

<https://globalcovidsummit.org>

Doctors for Covid Ethics:

<https://doctors4covidethics.org>

Professor Ehud Qimron, head of the Department of Microbiology and Immunology at Tel Aviv University and one of the leading Israeli immunologists:

“Ministry of Health, it’s time to admit failure. In the end, the truth will always be revealed, and the truth about the coronavirus policy is beginning to be revealed. When the destructive concepts collapse one by one, there is nothing left but to tell the experts who led the management of the pandemic – we told you so.”

<https://swprs.org/professor-ehud-qimron-ministry-of-health-its-time-to-admit-failure/>

Dr. Ana Maria Mihalcea, board certified Internal Medicine physician with a PhD in pathology:

“This documentary offers audiences a comprehensive view of the great deceptions that have overcome the entire world since the Wuhan narrative unfolded. Practicing physicians, clinicians, research scientists, engineers, communications specialists, and academics across a number of disciplines have assembled a scholarly and easily accessible analysis of the story.

Comprehensive covid data analysis from PANDA (Pandemics Data & Analytics):

<https://www.pandata.org/review-covid-vaccines-oct2022/>

Dr. Mark Trozzi is a physician working in the trenches, treating covid patients. He presents a hard-hitting, firsthand account of his own experience with covid and how it has been handled.

<https://brightlightnews.com/interview-covid-19-is-a-deceptive-criminal-campaign-dr-mark-trozzi/>

Dr. Robert Malone gave testimony about the pandemic response to The Senate of the Republic of Mexico:

https://rwmalonemd.substack.com/p/prepared-testimony-pandemic-response?utm_source=substack&utm_medium=email

Dr. Emanuel Garcia, psychiatrist and psychoanalyst: “The past three years, in our Corona Epoch, have revealed to those with eyes to see and ears to hear the rank depths of corruption within virtually every institute of government and within virtually every formerly honorable profession.

“To have witnessed Medicine undermine itself in such a way as to make itself unrecognizable – in, for example, its sudden enthusiasm for masks, its sudden forgetfulness about early treatment

and natural immunity, its sudden acceptance of a novel therapeutic agent that had been inadequately tested, its mania to subject children to this agent, its sudden scorn for informed consent and its equally sudden disregard of the founding principle of the Hippocratic Oath, at first not to harm – is to recognize outright self-destruction.

“That so many so-called medical practitioners abandoned their fundamental duties to their patients and themselves is a disgrace for which I can find no adequate word except prostitution – bearing in mind that in using this word I am doing sex workers a disservice because their form of prostitution represents an honest exchange.”

https://www.globalresearch.ca/lies-damned-lies-elephants/5811493?utm_source=substack&utm_medium=email
