

Dr. Denize Discusses...

Supporting your health journey, while improving health delivery.

JUNE 2026

WOMEN'S HISTORY MONTH

Summers around the corner!

The first official day of summer is Saturday, June 20th. Protect yourself in the summer heat and wear sunscreen. It's hard to believe that we are halfway through the year!

DID YOU KNOW?

- Women often have stronger immune systems than men.
- Ovaries are among the first organs to age—doing so roughly 2.5 times faster than the rest of the body.
- Uterine Fibroids: These are the most common noncancerous tumors in women of reproductive age
- About 1 in 4 women develop pelvic floor problem

“Fall in love with the process of becoming the very best version of yourself”
