ACP/ACM DIBOND PANELS

SIZE (FT) THICKNESS (INCHES)

4x8 1/8
4x8 1/8

ACP/ACM has been used as a light-weight but very sturdy material in construction, particularly for transient structures like trade show booths and similar temporary elements. It is comprised of two pre-painted sheets of .012" aluminum with a solid polyethylene core.

PLASTICS

CELL CAST CLEAR ACRYLIC

SIZE (FT) **THICKNESS (INCHES)**

4x8 1/16
4x8 1/8

Displays
Skylights
Signage
Windows
Doors
Any indoor/outdoor application where durability is required

Cell cast acrylic is half the weight of glass, more impact resistant, and easier to fabricate and work with.

CARBON FIBRE ABS

SIZE (FT) **THICKNESS (INCHES)**

4x8 1/16
4x8 1/12
4x8 1/8
4x8 3/8

Interior wall panelling
Door panels
Auto trim
Fender flares
Decorative surface

These decorative plastic sheets are composed of laminated ABS substrate. Great chemical resistance, high impact strength, excellent thermoforming, UV stability, sleek look and design.

COROPLAST CORRUGATED PLASTIC

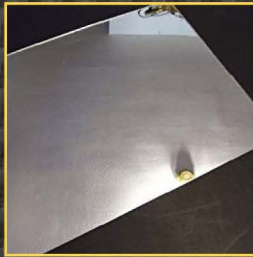

SIZE (FT) **THICKNESS (INCHES)**

4x8 0.157
4x8 0.157

A very versatile sheet that is widely used in applications ranging from hobby, craft, and school projects to construction applications such as surface protection, templates, signage, and printing projects.

ACRYLIC MIRROR

Half the weight of plate glass mirror while having ten times the impact strength, silver acrylic mirror is often used as a more economical alternative to glass mirror.

AEROPLASTIC - BOLTATRON

IN STOCK

SIZE (FT)	THICKNESS (INCHES)
4x8	0.040
4x8	0.060
4x8	0.093
4x8	0.125
4x8	0.250

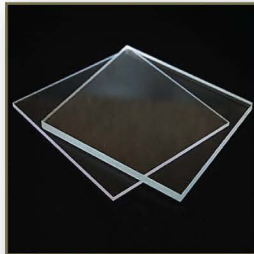

Boltatron Thermoplastic Sheet is a highly durable thermoplastic alloy. It has superior durability for a wide range of industrial and commercial applications. This aeroplastic displays high resistance to chemical corrosion, are easy to clean, endure impact extremely well, and are fire resistant. These characteristics combine to enhance the product's safety, in addition to its versatility.

KYDEX

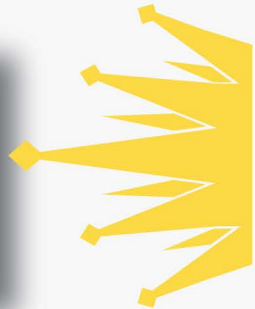

From acrylic, it obtains rigidity and formability; from PVC, toughness, chemical resistance, and good interior finish ratings. It is waterproof, scratch resistance, holds shape, and lower friction.

ACRYLITE

Mil-P-5425 Sheet (aka Heat-resistant Acrylite GMS and Polycast Poly II) is certified to meet or exceed Military Specification MIL-P-5425E. Its optical qualities make it applicable to aviation

OUR SERVICES

WE ARE ARMED with a 3-axis CNC machine equipped with an oscillating knife and 5'x10' table. With over 8 years of CNC experience, the team at Supply Kings is ready to help make your next project easy. Leave it to us and let us take out the hassle of cutting, bending, and fabrication!

Our goal is to provide high quality and affordable CNC work with any project you might have, from hobbies to mass manufacturing, we can help you every step of the way.

What can we CNC?

Rubbers
Gaskets
Foam Board
ACM/ACP
Aluminum
Plywood
MDF
Acrylic
Plexi
Puckboard
Honeycomb Board
Stenciling
Engraving
Custom Car Parts Manufacturing
