I believe that art and design are inseparable and can have a significant impact on how you are represented on the web. This collection showcases my latest personal web creations, which are not only visually stunning but also highly functional. From cutting-edge to timeless classics, I have something for every taste and style. Your journey of discovery begins here.

What you need to know about me: My main purpose as a UX/UI Developer is to test, evaluate, develop or recommend development changes, to create, and modify user interfaces through an understanding of end-user requirements. Both sited and non-sited users and includes individuals with cognitive or physical impairments.

What this entails:

- Engages with the business development team and/or customer early on to seek a deeper understanding of the customer's business issue/goals.
- Examine user requirements and site requirements to determine the feasibility of designing within time and cost constraints.
- Manual testing with multiple software systems and monitor functionality to ensure specifications are met.
- Design, develop, and modify sites, using scientific analysis to predict and measure outcomes and outcomes of design.
- Analyze information to determine, recommend, and plan modifications, of said modifications.

PROFESSIONAL EXPERIENCE

01/2020 - 06/2022 **Wells Fargo Bank, Charlotte, NC**
UI Developer
I have extensive experience with SharePoint Hub, and I'm an expert in technology. As the preferred resource for advising teams on how to create and manage sites for information sharing and publication, I leveraged my taxonomy and user experience skills to build a model site and establish best practices for all internal teams. I also provided training and demonstration of best practices. Additionally, I worked directly with Microsoft to provide feedback on usability and accessibility issues with the SharePoint product and associated web parts. Finally, I used PowerApps to create an online system to track and report on accessibility issues and their resolution.

<p>12/2010 - 12/2019</p>	<p>Wells Fargo Bank, Charlotte, NC UI Developer</p> <p>I was a part of the internal development team that worked with HTML, CSS, and JavaScript to create the front-end user experience for accessing internal SharePoint sites. My role was to validate the user experience and ensure accessibility before the developer code was created. I also provided guidance to the developers on how to comply with accessibility objectives.</p>
<p>02/2010 - 09/2010</p>	<p>Collabera Consultant/Microsoft</p> <p>I developed CSS templates for web assets based on the Telerik modal for an existing content management system. I researched SharePoint2010 technologies, HTML5 design practices, and Section 508 accessibility standards. I provided an Expression SketchFlow mock-up for new portal user interfaces for requirements gathering and user acceptance.</p>
<p>07/2008 - 03/2009</p>	<p>KForce, Sunnyvale, CA Consultant/Genentech</p> <p>I'm a web designer who specializes in implementing template-based design concepts into standards-compliant code. I've also developed and executed streamline navigation strategies that have delivered better performance and easy maintenance. In addition, I've introduced Iframe content sharing with other departments, and helped content owners think in terms of functional progression.</p> <p>Environment: Dreamweaver templates, CSS, Photoshop, JavaScript, Spry Accordion Widgets, Iframes</p>
<p>02/2008 - 05/2008</p>	<p>Maxonic, Sunnyvale, CA Stellent CMS Consultant/Applied Biosystems</p> <p>I was responsible for web site/portal development and maintenance using Site Studio, a content management system. I tweaked existing CSS/HTML/JavaScript templates and code snippets and developed Flash pieces with embedded HTML used throughout the site. I also contribute content and conduct testing.</p> <p>Responsibilities:</p> <ul style="list-style-type: none"> ❖ Performed as a UI Developer SiteStudio ❖ develop templates from wireframes. ❖ build/update CSS files for tableless web site ❖ troubleshoot page issue within CMS system. ❖ content configuration ❖ troubleshoot load issues. ❖ cookie updates ❖ navigation changes ❖ image editing/placement <p>Environment: Stellent Site Studio, DreamweaverCS3, CSS, Flash, Photoshop, JavaScript, AJAX, XML, XSLT, IDoc, JQuery.</p>
<p>07/2007 - 01/2008</p>	<p>Emportal, Walnut Creek, CA UI Developer</p> <p>A startup that failed. I designed the user interface for a medium-scale self-service ERP solution. I focused on content, navigation, functionality, and usability from the end-user perspective. I created site mock-ups in Photoshop, navigation wireframe mock-ups, navigation icon map index, and site map. I developed front-end CSS and templates to be handed off to developers who converted everything into controls. I also created mock-up CSS, site mapping in Visio, content wireframe</p>

mock-ups, and QA page feedback in PowerPoint. I generated ideas using interaction design principles.

Environment: CSS, JavaScript, XHTML, AJAX, Photoshop, Visual Studio, Dreamweaver CS, Visio, MSWord, PowerPoint, Excel, .Net Master pages, Telerik Ribbon UI, with use of RadToolBar, RadComboBox, RadGrid, RadWindow..

01/2007 - 07/2007

ESG Consulting Inc., Santa Clara, CA

.NET Consultant/Chevron Shipping, San Ramon

Develop site from wire frames, on an existing site. Analyze and improve business communication processes, advising on site design issues (e.g. – CSS, layout, navigation, functionality, usability, update methods, etc.).

Environment: .NET Master pages, CSS, global xml navigation. Visual Studio and Visual Safe Source v6 XHTML.

06/2004 - 04/2006

Golden 1 Credit Union, Sacramento, CA

UI Design & Development/Golden 1 Credit Union

Initiated/Implemented major re-engineering of corporate Intranet site, including restructuring and consolidation of various web-based applications, identifying end-user needs. Created online search capabilities, and was a key player in the implementation the Google search engine. Redesigned forms to standardize processes and promote quick data entry and retrieval. Converted Access databases to SQL database while maintaining email feedback of data entered.

- ❖ Design, develop and deploy website/portal applications with emphasis on security and performance.
- ❖ Investigate; troubleshoot web application issues providing intelligent system-compatible and timely solutions.
- ❖ Design, create SQL database table structures including stored procedures, views, functions, etc.

Recommendations from LinkedIn.com

Mary Vellequette

Top qualities: Personable, Expert, Creative

"Dorothy tackled an extensive refresh/clean-up/new content for 2 intranet web sites with excellent tech skills, people skills, and consistent grace under pressure. I particularly appreciate her thoughtful recommendations re: structuring web content so business users can rapidly and cleanly navigate our websites - and so that our ongoing website administration is simplified. She hit the ground running and ensured continual knowledge transfer to our staff. I would highly recommend Dorothy to any potential large-scale corporate client."

Sophie Wallace

Top qualities: Great Results, Expert, Creative

"I really enjoyed working with Dorothy. She is extremely creative and very fast in execution."

Keith Osiewicz, Web Content Manager

"Dorothy worked very carefully to develop design elements for a particularly important set of product launches for our company. She worked closely with the content writers to develop the design elements on time and beyond expectations."

Judy Gosiengfiao, Marketing Director

"Dorothy is a developer who is extraordinary in that she can view the big picture while keeping in mind intricate details of the projects she is involved with. She is conscientious of her work, communicating at all times status and making creative and business-focused recommendations. Dorothy consistently puts forth her best effort and it shows in the great quality of the work she produces."

Diane Goodrich

Top qualities: Great Results, High Integrity, Creative

"Dorothy is an excellent Web developer whose is detailed and meticulous in her work. She is very creative designer with a keen eye for design, and the ability to write sophisticated web content, with precision and accuracy. She works well within a team, and every level of management."

Terri Howard

Top qualities: Expert, High Integrity, Creative

"I have had the pleasure of knowing Dorothy Bass since 1993, first as a colleague and now as someone that I hire to do work for me. She is always pleasant to work with and very patient! She is currently designing and implementing two websites for me. She is extremely knowledgeable on graphic design and web design. I truly value her creativity and hard work. When describing to her what I want, she has the ability to expand my vision and produce a product that far exceeds my expectation. I highly recommend Ms. Dorothy Bass to your company. Please feel free to contact me for additional information. Sincerely, Terri Howard"

Amelia McGrath, MBA

Top qualities: Great Results, Personable, Expert

"Dorothy did some photography for me last year, and her work was just extraordinary. She is very creative and can position shots only as a true artist can. I found her to be very personable, patient, and she will not hesitate to put in the extra time and work to make each session perfect! I would not hesitate to recommend Dorothy and very much enjoyed her work as well as her company. Amelia McGrath
