Dear Doug,

I wanted to thank you for the professional services you have been providing for the past years. I have found them to be very valuable and the results have proven to be profitable. Cold calling is an integral part of a successful campaign and your efforts directly assisted our busy sales staff. I believe spending money on outside services like D and M Elite Marketing frees up our sales professionals to focus on working qualified leads and closing business.

Our prospects have always stated that you and your staff has been pleasant and extremely professional, we certainly appreciate that, as you are representing our firm. Many thanks for helping NEdocs grow within our industry.

Sincerely,
