

Monthly Newsletter

October 2020

September was such a fun month in our Infant classroom. We explored. Our children explored Animals, Colors and Fall through a variety of multimodal learning experiences. We have the pleasure of welcoming three additional children at the start of October and will see some of our children start to transition to Toddler class in the next bit.

In Toddler last month we welcomed two new fish, which the children named Bubbles and Nemo. We explored dinosaurs and Apples through art, sensory, circle time activities, and center materials. We were also excited to welcome two new Teachers to our Toddler classroom, Ms Kirin, and Ms Taylor.

Our Senior Preschool/Kindergarten children had a terrific month extending the explorations that were occurring in the class upstairs. They worked on more complex and tailored activities such as using real hammers to hammer golf tees into a pumpkin!

Our mixed Preschool/Kindergarten classroom we explored all things Ocean and water and then transitioned into exploring Fall. Our children enjoyed Fall sensory bins, jumping in piles of leaves at the natural park behind the center, and enjoyed some age appropriate yoga during one of the afternoons it was too hot to go outside. Below the children are doing Tree pose! We wish Ms Morgan well as she moves on to a new teaching position and pursuing a long-term career goal of hers. Ms Laming will be starting on Monday next week and will be an excellent addition to our team.

Special Dates/Reminders

- October 9th-Thanksgiving celebration Day
- October 12th-Thanksgiving STAT-Center will be closed.
- October 30th-Halloween Dress up Day & Festivities
- **Thank you for everyone for working with all the COVID procedures to keep all our kids, families and staff safe and healthy! We all appreciate it.**
