## Project Profile 2: Mini Dairy Processing Plant

Product Category: Dairy

Project Capacity: Input Capacity of 30 KLPD Raw Milk (Considering Techno-Economic viability)

End Products (Retail Packaging):

- Pasteurized Milk
- Yogurt
- Cheese

Milk demand is constant throughout the year, whereas Cheese has good demand in winter (4 Months) and Yogurt has good demand in non-winter months (8 Months). Dairy segment is constantly growing and there is a scope for value added products. Analysis is based on Metro cities consumption, though the capacity can hold true for Tier-II cities or other state capital cities.

IRR/ Payback: 30%+/ 2.5 to 3 years

We have in-house expert on dairy segment. Detailed project Feasibility will be showcased to prospects.

Interested Investors/ Promoters kindly connect to us through [venkatesh@futurezen.org](mailto:venkatesh@futurezen.org) for more details on this project. Please go through our website [www.futurezen.org](http://www.futurezen.org) to understand the services provided by our company..
