

When we reopen on June 1st, there will be a few changes in accordance with Alberta Government Covid-19 Guidance for Restaurants, Cafes, Pubs, and Bars.

One change that affects many our members will be:

<b>Amusement</b>	Recreational activities within bars, cafes, or pubs are not allowed at this time.  This includes dancing on dance floors, VLT play, billiards, pool tables, karaoke, shisha, hookah and water pipes, cards, and other activities.
------------------	---

(All Sport Leagues have been suspended until September.)

<b>Service</b>	<b>Guests dining inside the restaurant must order food and drinks from the table.</b>  Wait staff and servers who cannot be protected by 2 metres of distance or a physical barrier must wear a cloth or surgical mask.  Where reusable menus are used, thoroughly clean and sanitize between clients. Paper menus must be discarded after use.  Use rolled silverware and do not preset tables.  There can be no buffet service or self-service.
----------------	---

<b>Facility</b>	Maintain awareness, post COVID-19 signage throughout the facility.  Thoroughly sanitize each table after customers leave.  Washroom sanitation and supervision should be enhanced.  Staff should perform hand hygiene frequently.
-----------------	---

<b>Dining Area</b>	Ensure that customers have space to maintain physical distancing in waiting areas.  Encourage guests to wash their hands or use hand sanitizer with at least 60% alcohol content when entering and leaving.
--------------------	---

<b>Entry and Waiting Areas</b>	Ensure that customers have space to maintain physical distancing in waiting areas.  Encourage guests to wash their hands or use hand sanitizer with at least 60% alcohol content when entering and leaving.
--------------------------------	---

These are just a few of the new requirements. The ones that effect our way of doing business. To see the full requirements go to [Restaurants](#) for more information.
