

COYND GAME RULES

Players Needed:

2 to 6 players

Setting Up the Game:

- ◆ Shuffle all the cards.
- ◆ Give each player 5 Stock Cards and 1 to 3 Event Cards.
- ◆ Put any extra Event Cards aside.

How to Play:

- ◆ The player to the left of the dealer goes first.
- ◆ Each player picks 1 Stock Card from their hand and puts it face-down.
- ◆ Everyone flips their Stock Card over at the same time.
- ◆ When it's the first player's turn again, they can decide to play an Event Card (if they want to).
 - **If they play an Event Card**, follow the directions on the card. It can change how the points work!
 - **If they don't play an Event Card**, use the normal points on the Stock Cards.
- ◆ The player with the highest point Stock Card wins all the Stock Cards from that round!

Important Rules:

- ◆ You can't play the same Stock Card two rounds in a row.
- ◆ You can only play each Stock Card 2 times in the whole game.
- ◆ Once you play an Event Card, set it aside—you can't use it again.
- ◆ The next round starts with the next player on the left. Keep going around the circle!

How to Win:

- ◆ If you lose all your Stock Cards, you are out of the game.
- ◆ The last player with Stock Cards left is the winner!
