BIN NAWI ENERGY

Is a leading supply and service company representing international business organizations to deliver top quality equipment and professional services to its UAE clients and neighboring territories. BNE is headquartered in Abu Dhabi and is registered with the ministry of industry and commerce.

Thus, BNE focuses on providing specialist business advisory and support services to partner firms interested in participating in the unprecedented wave of infrastructure development and rehabilitation in the Arabian Gulf.

We, at BNE, recognize the difficulties international firms face in navigating the relatively opaque Middle East markets and the opportunity to help partner companies improve their performance during the different stages of the project award. Specifically, we realize the market opportunities and provide value added services to our partners firms during the project bid and execution process.

BNE, through its management and employees shall always strive to offer valuable insights in a reliable high quality service and support to their in-house resources for business development and market development on a local and regional scale
