# *Spring Bull Sale*

**443 ANGUS &  
53 HEREFORD  
BULLS SELL**

**NOON (CST)**

**at the Ranch - Yukon, Oklahoma**

Dear Friends and Fellow Cattlemen,

In light of the unfortunate recent passing of the Express Ranches' President, Jarold Callahan, the family ownership of Express Ranches has taken action to ensure a smooth transition and continuity in the ranch's operations.

The Funk family has placed their continued trust in the team of Kevin Hafner, Donnie Robertson and Mark Squires. Kevin, Donnie and Mark have been highly valued and trusted partners in the ranch's success and day-to-day operation since 1994. With a total of 85 years service between our new leadership team, we aim to create a seamless transition for our ranch employees, our customers and those who have interacted with Express Ranches over the years.

The Express Ranches' leadership team will continue to ensure that relationships, friendships, and loyalty will be at the ever-present heart of the business plan. We will continually strive to carry the vision of Express Ranches and focus on the goals of providing the highest quality cattle that our customers and ranch associates have come to expect from Express Ranches over the years.

Through the many years of leadership given by Jarold Callahan, Kevin, Donnie and Mark have been integral to the success of Express Ranches. Their knowledge of the Express operation, their hard work and their gift of internal leadership will place Express Ranches in extremely safe hands.

Thank you for your continued support.

Sincerely,

Bob Funk Sr. & Bob Funk Jr.

# Welcome!

Welcome to the 30th Annual Express Ranches' Spring Bull Sale!

We take this opportunity to thank our friends and customers for their past and future support.

We all know that one of the most important investment decisions you make in your operation is herd bull selection, because of how it affects your cowherd and its profitability.

The cattle business has moved into exciting times this past year and the future looks extremely promising and will be very rewarding to cattlemen as high-quality cattle will demand a top market price structure.

It has been with heavy heart these past few months as we all deal with the loss of our friend and mentor Jarold. As we move forward with the same goals we have developed for the past 30 years we are looking forward to sales that bring even more cattle that go above and beyond buyer expectations for not only EPD and Index Value excellence, but also are sound and built by design for the future!

Thank you for your interest in the Express Program and if Miles, Jason, J.W. or any of us can be of assistance, please contact us at any time.

Kevin Hafner  
VP of Operations

Donnie Roberston  
VP of Marketing

Mark Squires  
VP of Administration

## EXPRESS RANCHES HERD HEALTH

*Recommended by Dr. L.D. Barker, Professional Animal Health, Newcastle, Oklahoma*

### Calves:

At Birth – CALF-GUARD1

At 3 Months of age

1. Enforce 3
2. SoliDose Respiratory (Manhemia Hemolytica, Pasturella, Multocita, Mycoplasma, Histophilus somonus - Dual Dose Vac)
3. Calvary 9
4. Multimin

### At Weaning:

1. Bovi-Shield Gold 5 VL5 HB
2. Calvary 9
3. Pinkeye/Footrot Vac (SoliDose)
4. Deworm
5. SoliDose Respiratory (Manhemia Hemolytica, Pasturella, Multocita, Mycoplasma, Histophilus Somonus - Dual Dose Vac)
6. Multimin

### 1 Month Post Weaning:

1. Calfood Vac- Heifers
2. Bovi-Shield Gold 5 VL5 HB

Cowherd:

Open- 30 Days Pre-Breeding:

1. Bovi-Shield Gold 5 VL5 HB
2. Calvary 9
3. Multimin
4. Deworm

### Cows at Preg-Check:

1. 5 way Lepto
2. Deworm
3. 1st-Calf Heifers – Scour Guard 4KC at 6 weeks and 3 weeks prior to calving.

### Bulls - 30 Days Pre-Breeding:

1. Breeding Soundness Exam
2. Bovi-Shield Gold 5 VL5 HB
3. Calvary 9
4. Deworm
5. Multimin

1 Rota-corona virus vaccine administered prior to nursing.

2 May be given to calves nursing pregnant cows if cows have been vaccinated within the previous year with Bovi-Shield (or PregGuard).

### NOTES

No more than three gram (-) vaccines administered at one time "5-way" Lepto administered twice annually (~ 6 month intervals) in "high risk" herds and once annually in "low risk" herds Bovi-Shield may be used in calves nursing pregnant heifers/cows or in pregnant heifers/cows if the heifers/cows were vaccinated within 12 months. Bovi-Shield must be given initially to open females. ScourGuard 3 (K)/C should be administered pre-calving if calf scours is a problem. This should be administered twice (at least two weeks apart) the first year, with the second dose given 2-3 weeks before calving. A single annual booster may be given 2-3 weeks before each subsequent calving. Heifers' calves are twice as likely to develop scours as calves born to mature cows.

# HOW TO ABSENTEE BID

Live Internet Bidding will be available for the Express Ranches' 2024 Spring Bull Sale

Technical Support:  
(682) 816-4900  
Techsupport@liveAuctions.tv

Details on Page 128

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' a call-in service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at...

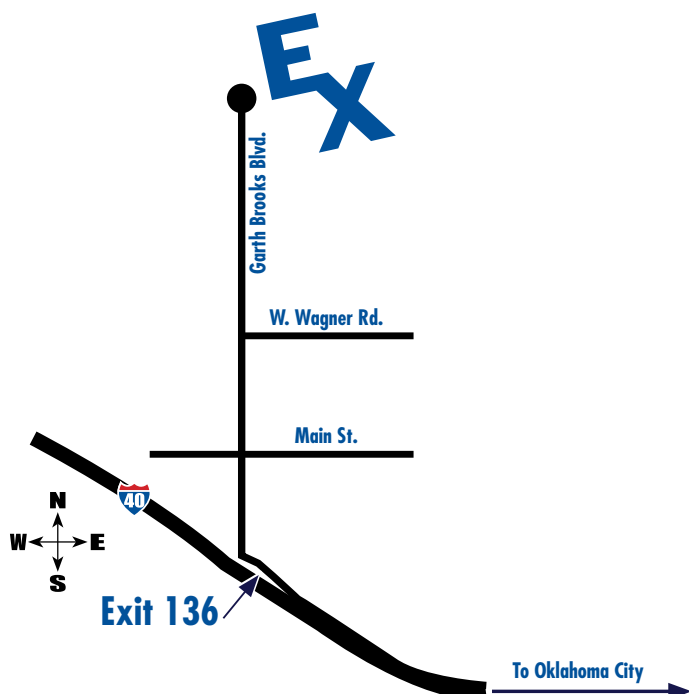

[www.superiorlive.com](http://www.superiorlive.com) or [www.liveauctions.tv](http://www.liveauctions.tv)

**Please refer to the detailed how-to-bid information which can be found on page 128 of this sale catalog.**

All the bulls selling have genomically enhanced EPDs and are free of all known genetic defects by pedigree or genetic testing.

## DIRECTIONS TO EXPRESS RANCHES

The ranch and sale headquarters is located west of Oklahoma City just north of Yukon, OK. Take the Garth Brooks exit (Exit 136) off of I-40 in Yukon. Go 3.5 miles north. The sale entrance is the second entrance to the ranch on the east side of the road.

## EXPRESS RANCHES BREEDING GUARANTEE

We guarantee that all bulls sold by Express Ranches are fertile to the best of our knowledge and have passed a Breeding Soundness Exam 30 to 45 days prior to the sale. Although all bulls have passed a BSE, we know certain problems can arise after you receive your purchase. To help ensure your investment, Express Ranches will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull. This is not a life insurance policy however. We will not replace a dead animal if it is killed or dies for any reason. Each year we strive to raise the best bulls we possibly can by utilizing common sense combined with all the technology and information available. All the bulls selling have genomically enhanced EPDs and are free of all known genetic defects by pedigree or genetic testing unless otherwise noted. Drs. LD and Matt Barker have semen checked all the bulls selling and they are backed with a first breeding season guarantee.

## FREE DELIVERY TO CENTRAL LOCATIONS (BULLS ONLY)

Express Ranches offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with in the handling of your cattle in both a professional and conscientious way. Express Ranches will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle to be delivered from the sale are delivered within 30 days after the sale. If you have any questions on delivery, please notify Kevin Hafner at (405) 641-8100.

Please assist us by leaving the correct contact people and numbers so our staff can keep you informed as to the status of your delivery.

We will also be offering a **\$50 PER HEAD REBATE** (bulls only) for customers who arrange to pick up their bulls here at our sale location within one week of the sale.

## VOLUME DISCOUNTS

In an effort to show our appreciation to our loyal customers, we once again will be offering our VOLUME DISCOUNTS! Remember, if you need a large number of bulls we have you covered!

**5-9 BULLS, 5%**

**WE'LL TAKE OFF 5% PURCHASE PRICE AT SETTLEMENT**

**10 OR MORE, MAKE IT 10%**

**WE HOPE THIS WILL MAKE IT A LITTLE EASIER TO FILL THE TRUCK!**

## EXPRESS RANCHES BULL DEVELOPMENT

All bulls are developed on a high roughage ration from weaning until sale time in large traps allowing them to get out and be bulls! We feed to obtain optimum performance while not sacrificing longevity! While extreme weights are impressive, we feel keeping cattle sound and functional are equally important. We have spent countless hours developing a feeding program that not only allows us to amplify the genetic potential, but keeps the cowman in mind that purchases him. All Bulls are on a 40-45% hay-based ration fed not over 3% of body weight. After all scan data is retrieved, bulls are backed off of feed, and hardened up to first turn out condition. This allows us to eliminate the bulls that fail to respond when conditioning for the upcoming sale.

*To sum it up, we try to get the bulls into the same shape we like to buy them in!*

## EX COOPERATOR BULLS

Express Ranches works with a select set of cooperators that purchase genetics from Express Ranches. We consult these programs on breeding and management decisions. The resulting bull calves that meet our requirements are sent to Express Ranches at weaning and are raised, developed and marketed through our program. These bulls are a designed product of Express Ranches and are bred to be consistent with what is bred and born on our ranch. These bulls are sold with the same strict standards, 100% guarantee and terms that every bull sold here carries. Express Ranches owns these bulls with each producer, but in some cases the breeder on the certificate may not show up as Express Ranches. They will all carry the EXAR name and be branded EX.

### 4-Star Calving-Ease

#### Selling 2/3 Interest & Full Possession

The lead bull of the Reserve Grand Champion Pen of Three Bulls with one of the top six adjusted URE measures of this sale offering and one of the top 10 adjusted 205-day weights. Dam was the \$650,000 top-selling female of the record-setting \$8,000,000 2023 Big Event at Express selected by Riverbend Ranch who also made a flush sister to this bull the top-valued heifer calf at \$240,000 for half interest in the sale where two flush sisters to Closer and one maternal sister to him sold for \$1,024,000 to headline the event. With four flush brothers among the 20 other sons of his record-setting dam in this sale offering, this power bull with a 76 pound birth weight and a 1,442 pound blends the three basics the Angus breed brings to the beef business in calving ease, maternal and marbling score in an explosive growth package.

### Selling 2/3 Interest & Full Possession

The lead bull of the Reserve Grand Champion Carload of Bulls, with impressive individual performance at every point of measurement, his dam sold half interest for \$70,000 to Audley Farm in the record-setting 2023 Big Event at Express where a flush sister sold half interest for \$40,000 and another sold for \$30,000 with his two flush sisters and 12 maternal sisters compiling an average valuation of \$32,000. With three flush brothers and a maternal brother that are featured in this sale offering, this power bull with an exceptional adjusted 365-day weight, a superior %IMF scan and a big URE scan has the ingredients of a top herd sire and a dam that gives him the potential to sire great daughters. # DB *Iconic* G95

ICONIC's rare combination of elite herd sire phenotype and unparalleled genetic predictions make him one of the most heavily used bulls in the Angus breed! ICONIC's progeny have continued to fuel the excitement of his breeding potential. They possess his striking good looks backed with genomic predictions that are second to none.

### Selling 2/3 Interest & Full Possession

EXAR Poker Chip 3671B is sired by the past ROV Show Bull of the Year, EXAR Blue Chip 1877B. The dam of this powerfully constructed future herd sire, EXAR Frontier Gal 1309, was herself a past Big Event sale feature and show ring contender, who was successfully shown by Whitney Walker. EXAR Poker Chip 3671B has a great look and excels in depth of body and stoutness throughout, while maintaining a great eye appealing look. Don't overlook this powerful future herd sire.

## EXAR Stock Fund 9097B

STOCK FUND has that valuable combination of individual performance and excellent EPD values to complement his structural soundness, freedom of movement and the look of an Angus herd sire.

This genomic-enhanced EPD superstar came charging to the top of the spring 2019 calf crop at Express with a phenomenal adjusted 365 weight of 1,630 pounds and an adjusted 365-day URE measure of 18.9 square inches to balance a birth ratio of 91 with a weaning ratio of 109, a yearling ratio of 116 and a URE ratio of 115 as his dam's first natural calf.

After the first progeny from STOCK FUND's sire earned him the Number 1 Weaning Weight EPD and Number 1 Yearling Weight EPD among sires in the Main Report of the Fall 2020 National Angus Sire Evaluation Report, an interest in EXAR STOCK FUND sold to ABS Global.

# EXAR Grenade 9152B

The first calf crop by GRENADE at America's largest registered seedstock operation was headlined by daughters that sold for \$180,000 and \$140,000 and his first sons were the core of the Express pen and carload bulls at the 2022 Cattlemen's Congress. GRENADE was this anchor bull of the 2020 National Western Grand Champion Carload of Angus Bulls offers a unique and valuable EPD profile and an outcross pedigree for many of the breed's most popular sire lines.

This sire can dramatically change the EPD profile of his progeny without sacrificing the frame size provided by their dams. His S320,000 dam, who raised him as her first calf, is the most famous and valuable daughter of the now-deceased Pathfinder Sire Sitz Top Game whose growing list of top-producing daughters also includes the dam of the \$70,000 two-thirds interest EXAR Jet Fuel 9706B.

Chosen the Grand Champion Polled Bull of the 2020 Hereford Heritage Show at Abilene, Texas, BENCHMARK, a son of the 2019 National Western Grand Champion, touches all the bases of combining powerful phenotype with EPD excellence! The future is bright for this young sire.

Offering an EPD profile of exceptional carcass merit for both muscle and marbling score with a combination of Fat EPD and Mature Cow Size EPD that indicates his daughters should be easy fleshing and an acceptable size and weight. BENCHMARK, a paternal brother to both EXR Bankroll and EXR Air Express, was produced by a daughter of the NJW Ribeye 88X bull. This young power bull is bred for high fertility and offers great SValue indexes with true genetic potential to sire high maternal daughters.

# Understanding The Numbers...

## PRODUCTION EPDs

**Calving-Ease Direct (CED)** is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)** expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)** expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)** expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Dry Matter Intake (DMI)** expressed in pounds per day, is a predictor of difference transmitting ability for feed intake during the postweaning phase, compared to that of other sires.

**Scrotal Circumference EPD (SC)** expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**Docity (Doc)** is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

## FOOT SCORE EPDs

**Claw Set EPD (Claw)** is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

**Foot Angle EPD (Angle)** is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

## MATERNAL EPDs

**Heifer Pregnancy (HP)** is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

**Calving-Ease Maternal (CEM)** is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

**Maternal Milk EPD (Milk)** is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**Mature Weight EPD (MW)** expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

## CARCASS EPDs

**Carcass Weight EPD (CW)** expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling EPD (Marb)** expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (RE)** expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)** expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

## \$VALUE INDEXES

**\$VALUE INDEXES** an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment. [More Info](#)

**Maternal Weaned Calf Value (\$M)** an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

**Weaned Calf Value (\$W)** an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull

females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

**Feedlot Value (\$F)** an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics for postweaning feedlot merit compared to the progeny of other sires. The underlying objective assumes producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis, but with no consideration of premiums or discounts for quality and yield grade. Traits contributing directly to the index are as follows: yearling weight (gain), carcass weight and feed efficiency.

**Grid Value (\$G)** an index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for carcass grid merit compared to progeny of other sires. The underlying objective assumes producers will market cattle on an above-industry-average carcass grid. Traits included in the index are as follows (in no particular order): carcass weight, marbling, ribeye area, and fat.

**Beef Value (\$B)** a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

**Combined Value (\$C)** expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: CED, CEM, WW, YW, Milk, HP, DOC, MW, Angle, Claw, DMI, Marb, CW, RE, and Fat.

# MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating our cattle with AngusLink<sup>SM</sup> programs: the Genetic Merit Scorecard<sup>SM</sup> and AngusVerified<sup>SM</sup>.

ANGUS <sup>LINK</sup>  
**GENETIC  
MERIT  
SCORECARD**<sup>SM</sup>

The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

**ANGUS  
VERIFIED**<sup>SM</sup>

AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day.

Users of AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

**ANGUSLINK**<sup>SM</sup>  
VALUE ADDED PROGRAMS

**ANGUSLINK.COM | 816-383-5100**

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.

## WATCH ON DISH NETWORK CHANNEL 997

### VIEWING THE AUCTION ONLINE OR ON TV

The auction will be broadcast online at [Bid.SuperiorLivestock.com](http://Bid.SuperiorLivestock.com) and the pre-recorded videos will also be hosted there prior to and on sale day. The auction will also be broadcast on *SLA-TV which is Dish Network channel 997*.

### ONLINE BIDDING

Go to [Bid.SuperiorLivestock.com](http://Bid.SuperiorLivestock.com) for Superior's new online bidding platform. If you have not registered there before you will need to create an account if you wish to bid (there is no registration required just to watch the auction). Once you have created an account, request a buyer number and you will then be able to bid online with the largest and most trusted cattle marketing entity in North America. Superior's new platform allows you to see both the live stream of the auction AND the pre-recorded videos on one screen at the same time!

### TURN IN BIDS OVER THE PHONE

This is Superior's suggested bidding method for anybody who does not have consistent, high-speed internet. You still must register an account at [Bid.SuperiorLivestock.com](http://Bid.SuperiorLivestock.com) and request a buyer number and upon doing so you will see the bid line phone number. Just watch the auction online or on TV and call in at least 2 lots ahead of the lot you are looking to bid on.

**For Help with Registration or Any Part of the Bidding Process,  
Please Call Superior at (800) 422-2117.**

*Buyers will be contacted by the Express Ranches after the sale for payment and delivery details.*

### HERE'S HOW IT WORKS

Go to [www.LiveAuctions.tv](http://www.LiveAuctions.tv). Please note: you do NOT need an account to watch the auction, but you do need to register an account and request a buyer number if you wish to bid. If you have not created a new account since September 1, 2020, you will need to click "Register" in the top right corner of the homepage and create a new account. Once you have completed the form on this registration page and hit the "Register" button you will receive an email with a place to click on to verify you have entered a valid email address. Once you have completed this registration process, find the auction you are interested in on the homepage and click on it (sales are listed in chronological order). You should then see a box that says Login. Now that you have an account with LiveAuctions just type in your email Address and Password. You will now see a hyperlink at the top that says "Request a Buyer Number". The first time you request your first buyer number on LiveAuctions it will send you a text message with a verification code in it. Type the code from the text message into the area requiring it and you will then see your name along with a buyer number listed at the top of the webpage where the live video is and you will be able to bid. You will only have to complete this two-step verification process one time. After that you will be able to immediately request a buyer number on any auction without verification through an e-mail or text message again.

LiveAuctions no longer requires an app. If you wish to view/register/bid on a smartphone just type [LiveAuctions.tv](http://LiveAuctions.tv) in whatever web browser you use. The registration process is the same as it is on a desktop computer, but the website is built mobile friendly. Click on the three lines in the top right corner to access the menus.

*Buyers will be contacted by the Express Ranches after the sale for payment and delivery details.*

If you need help registering to bid or to view the auction, call:

**Technical Support at (682) 816-4900 or email us at [TechSupport@LiveAuctions.tv](mailto:TechSupport@LiveAuctions.tv).**
