10' Wall Kit Series
(10' W x 8' H Backboard)

The ReadySPEC® Series is the first backboard product line in the Industry to provide a specification compliant backboard you can specify, submit, and site verify.
ReadySPEC® Wall Kits provide a convenient alternative to field fabricating full plywood sheets to fit common equipment room wall dimensions. Additionally, ReadySPEC® Backboards are now available in Bulk Project Packaging as a cost effective option when large quantities are needed.

Backboard is primed and then coated with UL® Classified Intumescent Fire Retardant latex. Select from a variety of color choices to meet your projects ANSI/TIA 606-B color-code requirements.

ReadySPEC® 10' Wall Kit
(Racks and equipment not included)

FEATURES

- Provides an Industry Compliant backboard ready for installation.

- Made of urea-formaldehyde resin free 3/4" A-C grade plywood to meet your "Green Building" requirements.

- Backboard panels coated with UL® Classified Intumescent Fire Retardant Latex on all sides.

- Serialized Verification Label - Plywood grade & application of UL® Classified Fire Retardant Latex detailed on product label.

- Provided with wall fasteners for installation of backboard kit on masonry, hollow block, steel and wood frame walls.

- Select kits include touch-up paint and brush.

- Select from ten color choices to meet your project ANSI/TIA-606-B color-code requirements.
