

TELECOMMUNICATION BACKBOARD KITS

The ReadySPEC® Series is the first backboard product line in the Industry to provide a specification compliant backboard you can specify, submit, and site verify. Whether your project requires small backboards or you need to cover an entire Equipment Room wall, ReadySPEC® makes it easy!

The ReadySPEC® Series allows you to specify the backboard by part number. When you specify ReadySPEC® Series, you will finally have confidence the backboard is made to Industry Specifications and coated with UL® Classified Fire Retardant Latex (Class "A" Rated).

Contractors realize ReadySPEC® Backboards save time and money because it requires no cutting, priming, or painting.

FEATURES

- Provides an Industry Compliant backboard ready for installation.
- Made of urea-formaldehyde resin free 3/4" plywood to meet your "Green Building" requirements.
- Available in 2' x 2' up to 8'H x 10'W wall kits.
- Cost effective Bulk Project Packaging available for projects requiring 24 or more backboards.
- Backboard panels coated with UL® Classified Intumescent Fire Retardant Latex on all sides.
- Serialized Verification Label - Plywood grade & application of UL® Classified Fire Retardant Latex detailed on product label.
- Provided with wall fasteners for installation of backboard kit on masonry, hollow block, steel and wood frame walls.
- Select kits include touch-up paint and brush.
- Select from ten color choices to meet your project ANSI/TIA606-B color-code requirements.
