SEED HANDLING

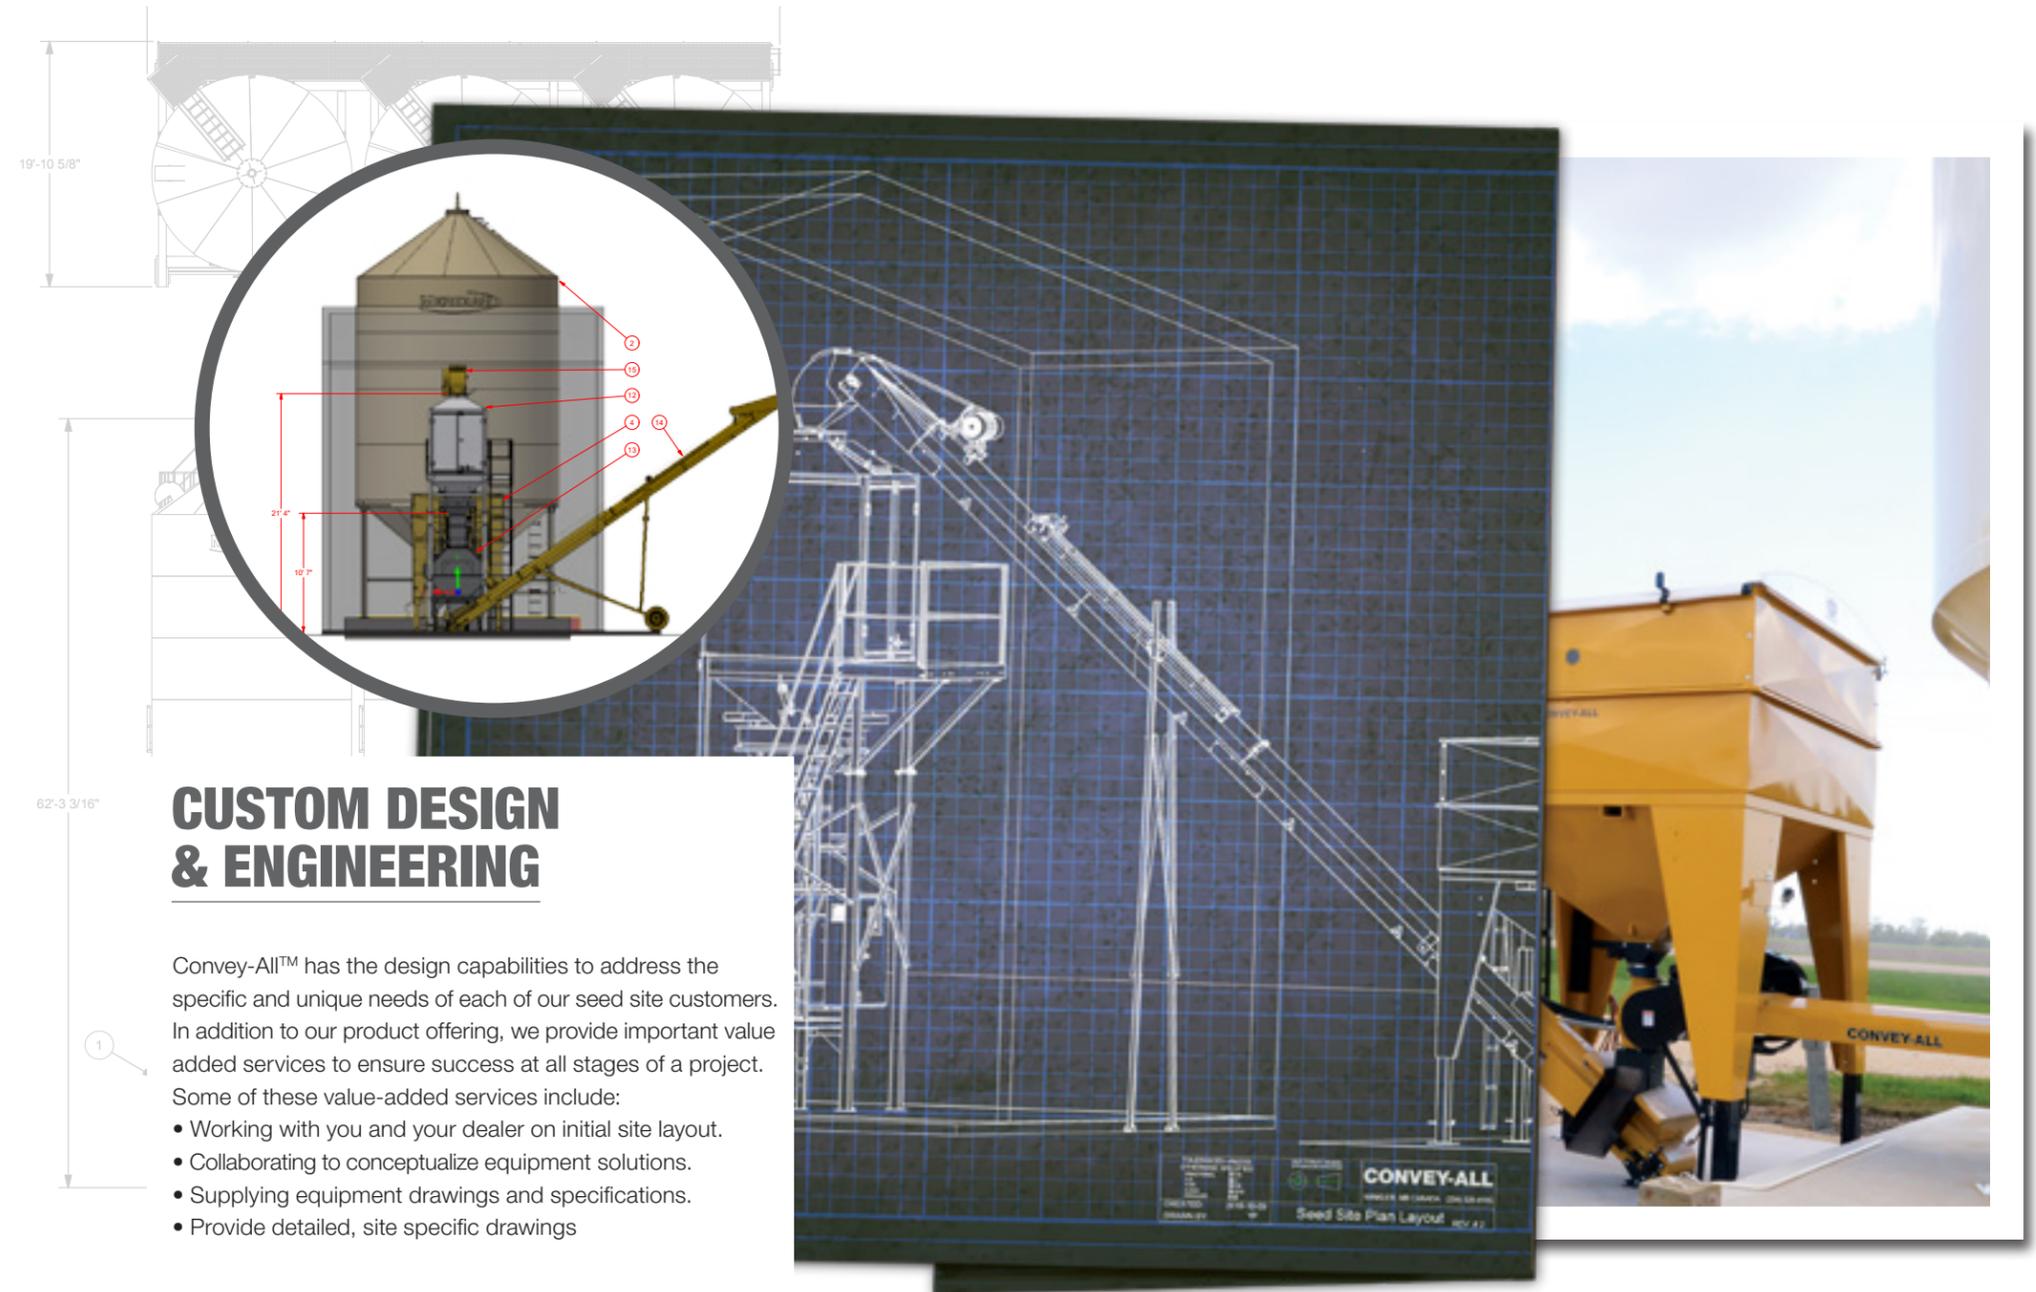

CONVEY-ALL™

OUR EXPERIENCE, YOUR VISION

Backed by years of experience, Convey-All™ does more than just supply conveying equipment. Your vision is what motivates the Convey-All™ design team. Our experts provide suggestions and solutions based on your input and industry knowledge. We will work on a plan together to turn your vision into reality. Trust Convey-All™ to design the perfect storage and handling plan that is customized for you.

PLAN

CUSTOM DESIGN & ENGINEERING

Convey-All™ has the design capabilities to address the specific and unique needs of each of our seed site customers. In addition to our product offering, we provide important value added services to ensure success at all stages of a project. Some of these value-added services include:

- Working with you and your dealer on initial site layout.
- Collaborating to conceptualize equipment solutions.
- Supplying equipment drawings and specifications.
- Provide detailed, site specific drawings

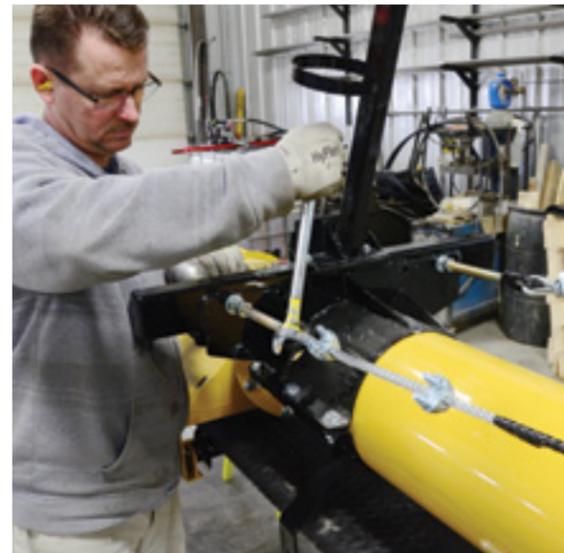

DESIGN

CONVEY-ALL™

QUALITY AT EVERY STAGE

Over the years, Convey-All™ has developed a full line of conveying options and has a reputation of excellence with the best fit and finish in the industry. We take the time to ensure quality parts and materials are used and we oversee each step of the manufacturing and assembly process. Convey-All™ applies industry leading best practices in manufacturing, welding and assembling.

BUILD

ON-SITE SERVICE

We build the handling equipment to fit your needs; then deliver it to your site so our service personnel can assemble and install it. After your site is operational, you will continue to be covered with Convey-All's superior customer service and after-sale support.

DELIVER

CONVEY-ALL™

SMOOTHWALL BINS

In partnership with Meridian Manufacturing Inc, Convey-All™ designers incorporate the proven reliability of Meridian bins into the design of your site. From there, the conveying equipment is added to maximize the efficiency of your seed handling facility.

SEEDMAX SERIES

STANDARD FEATURES:

- Internal seed ladder
- Cone man-way
- Access ladder
- 27" vented remote lid
- Roof manhole
- Three view glasses
- Rack & pinion slide-gate with adjustable band clamp
- 36" clearance
- Welded seam construction
- Powder coat exterior
- Probe hole—for seed sampling
- 40 degree cone bottom

OPTIONAL FEATURES:

- Electric rack & pinion slide gate
- Ladder cage packages
- Skids
- Aeration
- Air gate transitions

MULTI-PURPOSE STORAGE

Multi-purpose SmoothWall Bins are pre-welded, inspected, and treated with Meridian's premium powder coating inside and out. The special powder chemistry allows for better corrosion and abrasion resistance. Meridian offers these bins in various cone degrees and style to accommodate a wide range of products. For those extremely corrosive products and environments, Meridian offers a variety of powder chemistry options including zinc and epoxies to ensure years of trouble free storage.

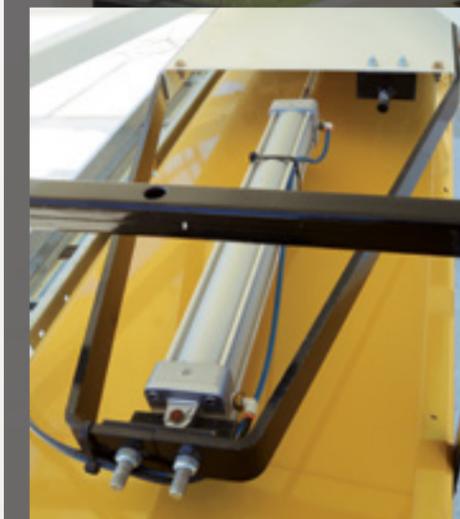

UNDERBIN CONVEYORS

Convey-All™ has been providing conveyors to the Ag industry since 1983, giving us over 35 years of experience in seed handling equipment. We take pride in building quality machinery with proven, straight-forward designs.

Our underbin conveyors are built in sections and are scalable to any site design, including easy expansion with your future growth.

FEATURES

STANDARD FEATURES:

- Mild steel adjustable legs
- Removable discharge hood
- Adjustable belt tension
- Electric drive (pulleys, belts, guards and mounts)
- Bed rollers spaced every 24"
- Return rollers spaced every 60"

OPTIONAL FEATURES:

- Air gates
- Weather covers
- Stainless steel components
- Receiving hoppers

HOPPERS

Convey-All™ Surge Bin and Scale Tower can be complimented with ladders, platforms and staircases. Structures and working surfaces are built to local and national building codes and regulations (IBC/ASCE 7, NBC, OSHA/OH&S).

FEATURES

Our Surge Bin is designed to be temporarily or permanently set up. It has a 150 bu capacity and can be increased to 250 bu with side wall extensions. Adjustable legs allow clearance for your seed treater.

STANDARD FEATURES:

- Rack and pinion slide gate
- Site glasses
- Exterior ladder

OPTIONAL FEATURES:

- Manual roll tarp
- Load Cells
- Weigh scale package
- Side wall extensions

Our Continuous Flow Scale Tower is NTEP approved, legal for trade in both indoor and outdoor installations. It has a 2000 bu/hr capacity, and will substantially reduce your weigh and treating time. It is designed for use with any dry, flowable product, and is ideal for seed treating lines. The Scale Tower is compatible with your seed site controls.

PADDLE BELT CONVEYORS

Convey-All™ Paddle Belt Conveyors greatly increase the angle of operation, up to 40 degrees, while matching the capacity of your seed treater. The belt design is gentle on your seed.

FEATURES

Excellent hopper clean-out access and enclosed belt return ensures long belt life. The conveyor is available in either a transport and stationary configuration.

STANDARD FEATURES:

- A-frame undercarriage
- Top-end electric drive
- 10" tube diameter
- 16" wide paddle belt
- Hopper access panel

OPTIONAL FEATURES:

- Steel hopper cover
- Collapsible hopper

CONVEYORS

Efficiency and convenience are important to Convey-All™. The engine and control station are set low and easy to reach. Our conveyors are built so they can be towed to and from work sites. The undercarriages are designed to be rugged and heavy duty, built using structural steel and fabricated for bolt-together durability.

BIN FILL CONVEYORS

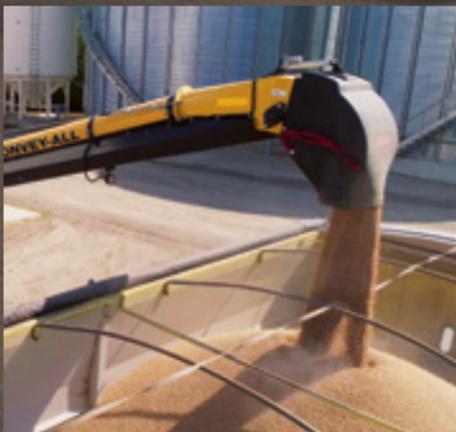

The 1600 Series uses a 16" belt inside a 10" tube, and is available in 35' to 100' lengths. They have a capacity of up to 6,000 bu/hr.

Self-Propelled options are available for the 70' to 90' lengths.

The 2200 Series uses a 22" belt inside a 14" tube, and is available in 35' to 120' lengths. They have a capacity of up to 12,000 bu/hr.

A swing-out conveyor is optional on both series, 85' and up.

TRANSLOAD CONVEYORS

These conveyors are available with 16" or 22" belt widths. They are perfect for moving product from a bin, to a truck or trailer.

Being self-propelled, they are easy to drive and maneuver across your yard or in the field.

Being self-contained and fully hydraulic, means no belts, pulleys, chains or sprockets, and no expensive tractor to power it.

TENDERS

Use our tenders year-round. Weigh and transport seed to your air seeder in spring. Receive grain from a combine at harvest, and haul product to market any time.

Our multi-compartment tenders are able to transport fertilizers and/or seed at the same time. The use of conveyors, ensures no seed damage or cross-contamination.

FEATURES

Convey-All™ has a tender to suit your every need. We offer a pro-box tender, as well as bulk tenders, with capacities between 115 units to 550 units. They are driven by gas engines.

Our commercial seed tenders have up to six compartments.

The truck-mounted series is designed to be mounted onto a standard 34" truck frame.*

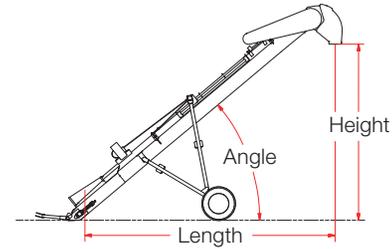

*Not all models are available in all regions.

Our trailer-mounted series is powered by a diesel engine, with self-contained hydraulics. They have a load capacity of up to 1500 cubic feet.

UNDERBIN SPECIFICATION

Model	Belt Speed (fpm)	Capacity (bph)
18"	400	2,900
	500	3,700
	600	4,400
24"	400	4,500
	500	5,600
	600	6,800
