

# MONDAY MORNING

WILEY SILER

Start the Monday morning coffee  
Two cups and he's ready to ride  
6 o'clock, punch a clock, in the saddle  
Then he's back to the grind

He does the job and he'll it right,  
He gives the boss man his 40  
But when it gets to the weekend  
She pours the whiskey and water.

**On Friday night it's Stadium lights  
And Honey do's on Saturday,  
Front pew in his best suit,  
And church choir on Sunday,  
She straightened him up and settled him down,  
That's the power of a good woman's lovin'  
Do it again with that 'larm clock warning,  
Come Monday morning**

He loves a hard working woman  
She keeps him walking the line  
Breaks his back, Calloused hands, pushing shovels  
And working that over time

He don't mind working day or night  
Trading his sweat for a dollar  
Cuz when he gets to that weekend  
She'll pour the whisky and water

## REPEAT CHORUS

He ain't never gonna let her down  
Cuz that's love in a little town

## REPEAT CHORUS

Up again with alarm clock warning,  
Come Monday morning
