This powerful combination based on time-tested Traditional Chinese Medicine (TCM) has proven to reduce pain and aid tissue repair.

19 Paths Herbal Pain Rub is manufactured in Canada under strict Health Canada guidelines.

KEY INFORMATION

How to Use

Apply directly on to the affected area. For best results, rub and/or massage into the skin until solution dries. Massaging the affected area during application promotes nutrient absorption and increased blood flow - leading to faster healing and improved mobility.

How Much 19 Paths should I use?

Applications will vary case by case. It is recommended to fully cover affected areas and rub/massage into skin until dry. Can be applied up to 4 times a day.

Warnings: For external use only. Avoid contact with the eyes and mucous membranes. Do not apply to wounds or damaged skin. Do not tightly bandage. Do not apply with external heat, such as an electric heating pad, as this may result in excessive skin irritation or skin burn. If overdose or accidental ingestion occurs, call a Poison Control Centre immediately. Consult a health care practitioner if you are taking prescription medications prior to use and if symptoms persist and/or worsen after 7 days or re-occur within a few days, discontinue use. If you are pregnant or breastfeeding, do not use this product. If you experience pain, swelling or blistering, stop use and get medical help right away.

KEEP OUT OF REACH OF CHILDREN.

WHAT IS 19 PATHS?

19 PATHS Herbal Pain Rub is a topical analgesic infused with 100mg. of hemp-derived CBD Isolate (99.54% pure) for the relief of muscle and joint pain.

BEST IN CLASS DELIVERY SYSTEM

Most topical CBD products rely on the CBD alone to deliver its pain relief and healing benefits. 19 Paths enhances the attributes of CBD with the addition of 18 Health Canada-approved active pain-suppressing ingredients (NPN # 80070368) which on their own deliver the means (paths) to broad spectrum pain relief.

WHAT IS CBD?

CBD (aka. Cannabidiol) is a compound derived from Cannabis and/or Hemp. Hemp has been used medicinally for thousands of years. It has medicinal benefits without delivering the psychoactive "high" effects commonly associated with Cannabis (THC) consumption.

WHAT IS CBD ISOLATE?

Simply put, CBD Isolate is Cannabidiol in its purest form.

19 Paths temporarily relieves and prevents pain safely and effectively by directly targeting affected areas of the body.

Better, safer pain management than opioids or anti-inflammatory medications.

THE DIFFERENCE BETWEEN GREAT & GREATER is 19

FEATURES

19 active pain suppressing ingredients

100mg. of pure hemp-derived CBD Isolate

CBD Infused into proven, powerful formula
