Bought the rub on a whim, as I recently had back surgery and have been experiencing nerve pain in my foot. Wow what a difference it has made. I have been able to reduce my narcotic use to once a day instead of 4 times a day. The pain is not gone but it is bearable which is more than I had before. I am so grateful for coming across the booth that was selling this product, it really has been my saving grace

I just feel the need to let you guys know that this product you are selling is the best thing i have ever tried. I suffer from chronic lower back pain ever since i fractured a vertebra in 2011. Ive been prescribed basically anything and everything relating to pain. Had to go to rehab to get off the opiates. Have tried numerous medication for nerve pain, inflammation, depression etc....some things worked but never without wicked side effects. As i now have given up on western medicine at this point, i now use jungle medicine from the amazon under the guidance of a shaman. I am currently undertaking a program made custom by an elder i found deep in the amazonian jungle in Peru. He also recommended i try and find a cbd topical where the side effects are non existent. So i just want to let you guys know that this gel i am using from you is absolutely phenomenal. Thank you guys so very much. Its so crazy how big pharma controls basically what can and cannot be sold over the counter at your local drugstore. This stuff should absolutely be sold in stores with easy access because it is so superior to what is available. Not only that, but also that there are no side effects. As governments are finally starting to see that the setup they have is corrupt to benefit these big pharma cartels, hopefully sooner then later cbd products will be available to everyone and whats even more humorous is to see how long it will take before health Canada covers these medications. Anyway, thank you guys for your product, and please fight for whats right and get it on yhe shelves beside those tylenol and advil toxins! Cheers

Impressive service - thank you so much!

I'm not looking forward to tonight as my sample jar is dry.

Both shoulders had consistently been at a pain level of 9 or 10 for months. Your gel reduced the right one to 0 or 1 and the left, which is totally screwed up, to a 3 or 4. Thanks for that!
