POLICY
IMPROPER/ ILLEGAL DUMPING AT GAMMA PARK

As decided by the board of directors, this policy has been implemented to address the problem we all face when members do not follow the stated instructions for garbage disposal. In addition, non-members illegally using our dumpsters causes additional charges we pay as an organization.

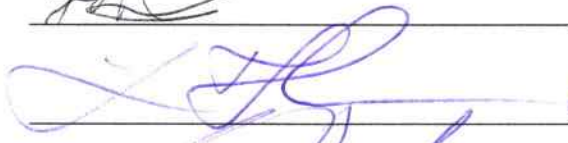

If the posted rules are not followed by members, then the board, or a board member, will attempt to identify and contact the member, utilizing community assistance as required, and give them the opportunity to retrieve their disallowed item(s). If the error is not corrected and results in an "overage" charge from our trash collection company, that cost incurred will be passed to the member. As of September 2024, a single overage charge is approximately \$225.00.

If a non-member(s) uses our dumpsters then the board, or a board member, will attempt to identify the individual, utilizing community assistance as required. Any information obtained will be turned over to law enforcement for illegal dumping and trespassing.
