

Lalo and Lyla – Learn to say Hello in Multiple Languages.

Students will meet Pawfessors Lalo & Lala and their dad Alan. They will hear Alan's story of how it felt to be the new kid in school while also learning English as his 2nd language. They will learn how the other students that reached out and found a way to say hi and include him in their group of friends made a lifelong positive impact on him and are still some of his best friends today. Students will learn that the language of kindness is universal.

After meeting Alan, Lalo and Lyla, students can look up ways to say hello in multiple languages. Babel.com has links to learn more as well. Have each student choose one new way to say Hello and create a small poster (on plain copy paper or construction paper) write the greeting in fun and colorful letters and decorate it with drawings, collage, stickers, paint or other art mediums. Display around the classroom to welcome every person that enters.

How To Say Hello In Different Languages: 21 Ways To Greet The World
