The class will compare and contrast how animals express their emotions and the safest and most compassionate ways that humans can react. The children will then participate in a game of charades by rolling 2 dice and acting out the animal and the emotion that they rolled. (Can be done one child at a time or a group of children and they can discuss how they are going to act the combination out for the class) After each roll, the teacher can lead a discussion on the safest and most humane way to react to the animal and its feelings and the kindest way to react to peers and their feelings. The teacher may also facilitate discussion on how our actions impact others.
