

Dear Future Family,

My Name is Crystal and I love people. I had a family once and I loved them very much but they were gone all day. I was bored and lonely while they were gone so I chewed the couch. When my family finally got home each evening I was so excited I would jump all around, but they were tired. I wish they had time to play with me.

Please learn about Huskies before you adopt me. I hope you have time to play with me. Please only adopt me if you can meet my needs. I need to exercise and I need attention. Most of all, I need you to keep your promise to be my forever family. That means you will never take me back and you will be my family for my whole life.

Love,

Crystal, the Husky
