

Green Collar Waste Business Continuity Policy

Introduction

Green-Collar Waste is committed to its customers, employees, shareholders and suppliers.

To insure the effective availability of essential services, Green-Collar Waste provides this Business Continuity Planning policy in support of a comprehensive program for business continuity, disaster prevention and total business recovery.

Policy

Each department is responsible for current and comprehensive Business Continuity Planning (BCP). Each BCP include those procedures and support agreements, which insure on-time availability and delivery of required services.

The BCP Plans are: Business continuity for each operational truck in each borough. Business continuity in the event of third party recycling/tipping closure. Business continuity in the event of HQ failure. Business continuity in the event of data centre/internet failure. Business continuity in the event of a major terrorist or environmental incident. Policy Compliance Certification BCP compliance verification is provided by the BCP Executive.

In-order to meet compliance requirements, each Plan includes those appropriate procedures, staffing, tools and workplace planning requirements, necessary to meet approved deliverable requirements. All BCP Plans are certificated and updated annually. Policy Compliance Certification Support. The BCP team, is available to support the development and BCP policy compliance certification process. Green-Collar Waste recognizes the importance of a comprehensive Business Continuity Planning Program to insure the safety, health and continued availability of employment of its employees and quality goods and services for those we serve. We require the commitment of each employee, department and vendor in support of the objectives required to protect Green-Collar Waste assets, mission and survivability.
