

# 4<sup>TH</sup> GRADE NEWSLETTER

February 9 – February 13

## What's ahead...

### Reading

Next week we'll be wrapping up our unit and making connections between the previous texts. We will explore one more prompt and study it with detail in order to practice our learned skills. We will have our unit test on Friday, February 13.

### Mathematics

Having just completed our mid-unit assessment, we will now move on to division. We will learn to divide three digit numbers. This skill will require lots of practice as it tends to be harder to understand at first. Please make sure to have your child practice at home though the homework sent. We'll have our quiz on Friday, February 13.

### Science/ Social Studies

For science we'll be learning about waves and light reflection. We'll be connecting these concepts to real life examples and completing a short in class project to ensure understanding.

## Spelling words

- No spelling words this week, instead practice the spelling bee words.
- I've decided to have the final in class spelling bee Tuesday, February 10 so give students more time to practice. Good luck fourth grade!

## Upcoming Events

- Tuesday, Feb. 10: IN CLASS SPELLING BEE
- Thursday, Feb. 12: SCHOOLWIDE SPELLING BEE
- Monday, Feb. 16 NO SCHOOL PRESIDENT'S DAY

## Upcoming Test/Quizzes

- Friday, Feb. 13: Reading Test
- Friday, Feb. 13: Math quiz
