# ICCI Academy | Mathematics Newsletter | Mrs. Sejla

### FIFTH GRADE

Students will continue learning: to compare/order fractions, make/find equivalent fractions, and rename fractions as decimals.

### SIXTH GRADE

Students will learn to, match situations with graphs, combine a spreadsheet and graph with various formulas. There will be an end of section test after they complete the last three sections I just mentioned.

### SEVENTH GRADE

Students finished off Unit 3- Decimals, Integers, Fractions, and will be given an end of unit test on Tuesday. We will start with the new Unit and learn ratios rates, and proportions.

### EIGHT GRADE

Students will be tested Tuesday on Unit 4: linear functions. In the next unit Students will commence solving equations, including: using the distributive property, adding like terms, and lastly solving algebraic word problems.

----------------------------------------------------------------------------------------

Pure mathematics is, in its way, the poetry of logical ideas. – Albert Einstein
