

# 4<sup>TH</sup> GRADE NEWSLETTER

March 9 – March 13

## What's ahead...

### Reading

This week's text addresses space exploration. Students will learn more about exploring and will practice the skills we've learned thus far in the unit. These skills included using context clues, making inferences, and recognizing first and secondhand accounts.

### Mathematics

Students have just completed their assessments on area and perimeter. We will now have our unit 3 assessment which includes long division, unit conversion, area, and perimeter. We'll review on Monday and have our unit test on Tuesday, March 10.

### Science/ Social Studies

We will continue our lesson in science and learn more about reflection, refraction, concave and convex lenses. We'll have a quiz on Thursday, March 12. Studyguides will be sent home the day before.

## Spelling words

**CONNECT IT:** *suffix -ist, suffix -ment*
