

Asalamu Alaikum,

As we come to the end of another wonderful school year, I would like to take a moment to express my heartfelt gratitude to all of you for your support, encouragement, and partnership throughout the year. It has been a pleasure and a blessing to work with your children and witness their growth academically, socially, and spiritually. Their enthusiasm, perseverance, and achievements are a reflection of the strong support they receive at home. Together, we have created a nurturing environment that has helped them learn, develop confidence, and strengthen their character. I am proud of all that our students have accomplished this year, and I pray that Allah (SWT) continues to bless them with knowledge, wisdom, and success in all their future endeavors. I will make another post inshallah containing a summer packet, multiplication daily practice, and resources to support your children. I highly recommend you look through these resources and use them to continue supporting your children over the summer. In addition, reading everyday is crucial, so please make sure that your child reads grade 3-grade 4 level books that help build their comprehension skills. If you need any further support or resources feel free to contact me anytime and I will do my best to respond in a timely manner.

Jazakum Allahu khairan,

Mrs. Rouha

Summer Resources

Please note: I highly recommend students practice their multiplication and division every day in order to be fully prepared for fourth grade. I advise to complete daily time drills that consist of addition, subtraction, multiplication, and division problems. Furthermore, daily reading and comprehension checks would highly benefit the students as well.
