

4TH GRADE NEWSLETTER

What's ahead...

Reading

This week in reading we'll be learning about perspective. We'll analyze different points of view, specifically first person point of view and third person point of view. Our reading quiz will be Friday, April 17.

Mathematics

For math we will delve deeper into fractions. This week we will begin learning how to add and subtract fractions with common denominators. We'll have our quiz on Thursday, April 16.

Science/ Social Studies

This past week students explored interesting topics about information transfer including hieroglyphics and even binary code. We'll review this past unit on Monday and have our test on Tuesday, April 14. Students began reviewing and were advised to begin rereading the chapter as preparation.

April 13– April 17
