

♥ Welcome to Kindergarten

Dear parents:

Welcome to kindergarten and the start of a New Year! This is the beginning of the greatest and most important adventures of their lives-- learning to read and write. I look forward to learning more about each child as we venture out this next year together.

This year we will learn how to read, write, and work with numbers. The children will delve into the fun world of science and social studies with the group activities and build their understanding of the world around them. They will have the ability to build and foster relationships and understand behavior as they engage in the numerous play activities, as well as expressing their creativity in their work and art projects as the school year progresses.

Parents play an important role in their child's life. That is why it is very important that you get involved in your child's learning at home. Parents can practice with their child's daily to ensuring that they comprehend what they have learned. Kindergarten is a fun time for the child and their parents, and we want the children to know that learning is fun.

Moreover, Newsletters are posted online every week. There you will find all the information you will need for the week ahead. All announcements, papers, and homework assignments will be found in your child's folder

Parents and I are the main key for the child's success. Please get in touch with me whenever you have a question or concern about your child. I look forward to working with you and your child this year. You can contact me at asmaabuhashi@yahoo.com

Sincerely,

Ms. Asma Abuhashish
