

MATH *and* SCIENCE

Welcome to the Math & Science 2020-2021 Class!

My name is Ms. Batoul Mousa. I held a Bachelor's degree in science from Northeastern Illinois University in 2020. I will be the Math & Science class teacher for 5th-8th graders.

I am excited to have your child in my science and math classes during this academic year. Science and Math classes are known to be intense and more stressful than the other classes. With your support and your child's mindfulness, hard-work, and ambition, I will make ensure that your child will understand the concepts well and thoroughly. There will be daily homework, weakly announced or unannounced quizzes, and unit tests after each chapter. Quizzes and tests are composed of Multiple choices, True/ False, and short answers. Unannounced quizzes will cover based on the material that has been covered before. All homework assignments will be graded based on righteous and completions. There will be 10% deduction for late submission. In addition to that, it is encouraged to read prior the classes for better understanding of the concepts as it is part of the participation points to engage within the class, activities and to ask questions. There will be weekly 10 points on the students' behaviors throughout the class times as parents will be updated at all the time. Your signature and communications are required at 100% of the time. I will be communicating with students through Microsoft Teams and their parents during school hours.

A student must have their folder, book, notebook, and any required supplies in every class. Failure to do so will result in:

First time: warning from the teacher.

Second time: points deductions and asked to leave the class.

Third time: sent to the principal office.

My goal this year is to make sure the students learn the most in a productive and an effective way. There will be students that will be sent out to Title-1 for Math to increase their math skills that was determined by pervious grades, test grade, or recommended

by their teacher.

Required Materials:

For Math: A notebook, scientific calculator, and folder.

For Science: A notebook, folder, and blue and black pens.

If you have any questions, do not hesitate to reach me out at balzaben12@gmail.com during school hours.
