

ICCI Academy

2nd Grade Room 203

Nov 4th ,2019

Greetings

Salam Alkuiam parents and students

This week we will be studying more intensely, We will be taking the adding and subtraction using 3 digits and 4 digits, reviewing (with borrowing and regrouping). I have picked (One Grain of Rice) because it a literature story integrating this lesson with Math. Then in science, we are learning about animals and their habitat, and how they can adapt to their environment integrating social studies with it about landforms, studying each landform and which animals live in that habitat.

We will be writing and reading about One Grain of Rice, and how Rani was a clever girl that saved her people from hunger.

Social Studies: I will be passing out a project about (our continents and oceans)so they can color and turn into a poster, It will be a graded assignment and is considered a presentation. Make sure your child knows how to present in front of the class, and knows how to pronounce the words.

Lesson Plans

Literature: Reading about One Grain of Rice.

Language Arts : Learning about Homophones. Reviewing Antonyms and synonyms.

Writing: writing in our everyday journal in class about schools events.

Science: □ Learning about birds and amphibians living habitat and environment adaptation .

Worksheets are done in class as classwork with the teacher.

Math: Working with 3- and 4 digits .

Social Studies: Knowing our land forms and natural resources.
