

# 4<sup>TH</sup> GRADE NEWSLETTER

## What's ahead...

### Reading & Language Arts

We will finish our personal narratives this week. Students will type their narratives in class, after completing the last steps of editing and revising. Those who would like to share their narratives with the class will be allowed to do so.

### Mathematics

Fourth grade is set to begin a new unit in mathematics. Unit two is a preparation for algebraic functions. We begin to explore multiplication as a comparison. We'll use bar models and equations. We will have our math quiz on **Thursday, October 23 inshallah.**

### Science/ Social Studies

Fourth grade will continue exploring our unit in science which is dedicated to energy. We'll talk more about collisions. Then we'll begin talking about complex concepts like energy transfer and energy transformation.

**October 20 – October 24**

## Spelling words

We'll head back to our spelling curriculum next week inshallah. This week we'll apply our spelling skills to find spelling errors in our personal drafts.

**ANNOUNCEMENT:** The class is short on sanitizer. If you didn't bring in sanitizer with your child earlier in the year, please send it now!
