

4TH GRADE NEWSLETTER

OCTOBER 5 - OCTOBER 9

4TH GRADE MATH

This week we'll be subtracting whole numbers. This will include regrouping. Please make sure your child practices this skill properly with the homework every evening. Students can come to me during snack for more practice or questions. Since this lesson is challenging I will use the entire week to model and explain. Our quiz will be the following week inshallah.

5TH GRADE MATH

This week in math 5th grade will be dividing multidigit numbers by two digit numbers. We'll be dividing vertically, with area models, and while using inverse operations. I encourage each student to be familiar with each method. We will not have a quiz next week, our quiz will be the following week inshallah.

4TH GRADE READING & LANGUAGE ARTS

This week we will read stories about dealing with your fears. We'll be reviewing all concepts thus far in preparation for the unit test. We'll review making inferences, theme, and character traits. The unit test will be longer with more parts of speech to review for language arts. Therefore, this week I will not assign a spelling test. Instead, we will have grammar review every night.

The Language Arts and Reading unit test will be on Friday, October 9.
