

4TH GRADE NEWSLETTER

AUGUST 31 - SEPTEMBER 4

4TH GRADE MATH

This week fourth grade began reviewing our multiplication facts. I advise students to continue practicing multiplication facts! Next week we'll delve into place value. We'll learn more about expressing numbers in word form, expanded form, and standard form. We'll have our first quiz on **Wednesday, September 2nd.**

4TH GRADE READING & LANGUAGE ARTS

This week we'll be reading texts that are all about mysteries. Our focus skill will be summarizing the text. We'll practice focusing on the main ideas to help us summarize stories. Our quiz will be on **Friday, September 4th.** We are also reviewing parts of speech for language arts including nouns, verbs, pronouns, and proper nouns. This will all be on the upcoming quiz as well. We will not have a spelling test next week since I do not want to overwhelm the students so early on. We will transition into our routine in the smoothest way possible.

5TH GRADE MATH

We began the week with a division review. We then began our lesson on volume which introduced another dimension for fifth grade, height. This concept appeared complex at first, however fifth grade was able to grasp it. We will have our first quiz on **Wednesday, September 2nd.**
