

4TH GRADE NEWSLETTER

What's ahead...

Reading & Language Arts

Last week we looked at examples of personal narratives. We also began brainstorming and prewriting. This week we will continue on to drafting and revising our personal narratives.

Mathematics

Fourth grade will continue with subtracting as many students struggled with regrouping. I decided to postpone **this week's math quiz to next Wednesday, October 15**, that way we have plenty time to review. I will also monitor students individually for any small mistakes. We will end the week with a **Unit test on Friday, October 17 inshallah**. This will include rounding, comparing, adding, and subtracting whole numbers.

Science/ Social Studies

We're heading back to science next week. We will begin Unit 2 which is about energy. We'll discuss what energy is, how it is transferred, and how collisions show energy.

October 14 – October 17

Spelling words

No spelling words this week! We'll be using all of reading and language arts time for narrative writing!

ANNOUNCEMENT: The class is short on sanitizer. If you didn't bring in sanitizer with your child earlier in the year, please send it now!
