

4TH GRADE NEWSLETTER

What's ahead...

Reading & Language Arts

Our next lesson in reading is entitled The Power of W.O.W! We will use this text to discuss theme and to explore the genre of plays. We will also glance over topics like stage directions, dialogue, and cast. I will introduce an important literary tool called allusions, which is when an author references a famous person, place, event, or story.

Reading test on will be on Friday, September 26.

Mathematics

We will move on within our unit to rounding whole numbers. We will use number lines and charts to explain the concept of rounding and to make it easier to grasp for our visual learners. Our next math quiz will be on **Wednesday, September 24** inshallah.

Science/ Social Studies

We have just completed our first science test so we will now rotate back to social studies and begin our unit. We will discuss the regions of the United States including the weather and climates across the country. Some of the terms we will use are tropical, polar, subartic, and temperate. These terms are used to describe the vast climates of our beautiful states.

September 22-26
