

4TH GRADE NEWSLETTER

What's ahead...

Reading

This week we will begin our first classroom novel *Holes*. Students will be assigned certain pages to read at home and will be responsible for notetaking and independent activities. We will then discuss and share as a class. Please have a composition notebook for your child by Monday.

Mathematics

We will continue to decompose fractions this week. We'll have our quiz (postponed from last week) either Wednesday or Thursday (depending on our iready testing schedule).

Science/ Social Studies

Fourth grade is finishing up our chapter on the northeast region this week. Students will review and do a small class project about the northeast. We will have our test the week of May 4 since I do not want to drain the students with too many exams during iready testing week. Please note Social Studies will be condensed due to our iready exams.

April 27–May 1

Spelling words

Lesson 15 prefix *-un*, prefix *-com*,
suffix *-ly*
attracting, common, equality,
equally, oppose, opponent,
uncommon, uncommonly, unfair,
